Traditions & Encounters Jerry H. Bentley, Herbert F. Ziegler, 2006 On the basis of a superficial inspection Traditions Encounters might look similar to several other textbooks that survey the world's past Like other books for example Traditions Encounters examines the historical development of societies in Asia Europe Africa the Americas and Oceania Yet Traditions Encounters differs from other works in two particularly important ways First it relies on a pair of prominent themes to bring a global perspective to the study of world history it traces the historical development of individual societies in all world regions and it also focuses attention systematically on interactions between peoples of different societies Second it organizes the human past into seven eras that represent distinct and coherent periods of global historical development Preface Page xvi
