The Midway Battle Gautam Chintamani, 2021-11-10 In 2019 the BJP came into power once again on the back of one of the most significant electoral mandates in recent years Since then the Narendra Modi led government has seen a tumultuous few years as they have implemented far reaching legislative changes including the Jammu and Kashmir Reorganisation Act triple talaq the Citizenship Amendment Act as well as farming laws These laws when implemented caused widespread protests and upheaval across the country While the country grappled with internal strife it

also faced challenges from its neighbours in the form of one of the most intense military stand offs in decades after an unprovoked attack by China's People's Liberation Army at Galwan as well as a global pandemic While the Modi government took swift steps to limit the spread of the pandemic in 2020 the second wave of COVID 19 in early 2021 hit the country hard claiming thousands of lives Bringing a well researched and nuanced understanding to Modi's second term The Midway Battle sheds light on the sociopolitical issues facing India as it continues its struggle against enemies both known and unknown and puts into perspective what lies ahead for the world's biggest democracy

Adaptations of Calvinism in Reformation Europe Mack P. Holt, 2016-03-16 Traditional historiography has always viewed Calvin's Geneva as the benchmark against which all other Reformed communities must inevitably be measured judging those communities who did not follow Geneva's institutional and doctrinal example as somehow inferior and incomplete versions of the original Adaptations of Calvinism in Reformation Europe builds upon recent scholarship that challenges this concept of the fragmentation of Calvinism and instead offers a more positive view of Reformed communities beyond Geneva The essays in this volume highlight the different paths that Calvinism followed as it took root in Western Europe and which allowed it to develop within fifty years into the dominant Protestant confession Each chapter reinforces the notion that whilst many reformers did try to duplicate the kind of community that Calvin had established most had to compromise by adapting to the particular political and cultural landscapes in which they lived The result was a situation in which Reformed churches across Europe differed markedly from Calvin's Geneva in explicit ways Summarizing recent research in the field through selected French German English and Scottish case studies this collection adds to the emerging picture of a flexible Calvinism that could adapt to meet specific local conditions and needs in order to allow the Reformed tradition to thrive and prosper The volume is dedicated to Brian G Armstrong whose own scholarship demonstrated how far Calvinism in seventeenth century France had become divided by significant disagreements over how Calvin's original ideas and doctrines were to be understood
