

## Training manual structure template

1.	<b>title or heading of subject/course/department/job training</b>
2.	<b>index, timetable, programme</b> (especially itemising training content and elements)
3.	<b>training policy or policy summary</b> (and reference to full current policy document - emphasise issues about equality and employment/discrimination law)
4.	<b>introduction/definitions</b> (manual structure and glossary, terminology, training design rationale, etc)
5.	<b>aims, expectations, measures</b> (setting the scene - explaining what will happen - mutual expectations and standards - the <a href="#">Kirkpatrick model</a> is useful for this)
6.	<b>use of manual</b> (how the manual works and how it relates to the training and the job)
7.	<b>training methods, support, media, materials</b> (the training formats and options, tutors and support)
8.	<b>training content/elements</b> (itemised and presented in logical sequence and in suitably sized elements for delegates' learning ability, and reflecting the order of training activities and delivery - <a href="#">see example formats below</a> - again see Kirkpatrick's model which can be used as a structure for each element - and also see the VAK learning styles and Kolb learning cycle/styles model, both of which are helpful in ensuring delivery formats meet needs of all preferred learning and communications styles)
9.	<b>ongoing learning and follow-up</b> (especially help with practical implementation - optionally this section can be included after each training element, which is preferable where content is extensive or complex - include any relevant information to help and encourage learners to apply new capabilities and to continue learning)
10.	<b>bibliography and references</b> (further information sources - again optionally this section can be included after each training element if more effective for delegates)
11.	<b>copyright and authorship information</b> (as appropriate - obviously more significant for externally provided training)
