**Looseleaf for Traditions & Encounters, Volume 1: From the Beginning to 1500** Jerry Bentley, Herbert Ziegler, 2014-10-16     The Complete Idiot's Guide to World Religions, 4th Edition Brandon Toropov, Luke Buckles, 2011-05-03 The updated guide to differences and similarities of faiths around the world In this revised and updated edition of the popular guide to the many faiths followed around the world modern and ancient religions are extensively covered as well as New Thought religions This edition also now features a chapter on Sikhism more coverage of religious extremism in the 21st century a new chapter on the afterlife and additional online resources making it the most up to date volume available Outdoes the competition with more chapters on current and ancient religions Appeals to students theologians and those generally interesting in religions around the world     *God's Design, 4th Edition* Elmer Martens, 2015-11-11 How does one summarize the thirty nine books of the Old Testament How might one determine the message of the Old Testament with others This book attempts an answer to these questions The answer is taken from a single Scripture passage Exodus 5 22 6 8 which is here considered a theological Table of Contents for the Old Testament In addition to such topics as Deliverance Community and Experiencing God the book has an extended discussion on Land a subject which deals with a wide range of interests but which only rarely receives attention in books on biblical theology The current edition features reflections and a set of discussion questions following each of the seventeen chapters a boon for university and seminary teachers and students and of large help for church study groups     **The Material of World History** Tina Mai Chen, David S. Churchill, 2015-03-27 This volume considers the confluence of World History and historical materialism with the following guiding question in mind given developments in the field of historical materialism concerned with the intersection of race gender labour and class why is it that within the field of World History historical materialism has been marginalized precisely as World History orients toward transnational socio cultural phenomenon micro studies or global histories of networks Answering this question requires thinking in an inter related manner about both the development of World History as a discipline and the place of economic determinism in historical materialism This book takes the position that historical materialism as applied to the field of World History needs to be more open to the methodological diversity of the materialist tradition and to refuse narrowly deterministic frameworks that have led to marginalization of materialist cultural analysis in studies of global capitalism At the same time World History needs to be more self critical of the methodological diversity it has welcomed through a largely inclusionary framework that allows the material to be considered separately from cultural social and intellectual dimensions of global processes     **Civilizations of the Silk Road** H. K. Chang, 2023-06-02 This book describes the interactions between various civilizations and societies along the Silk Road between 500 BCE and 1500 CE the period from the first encounters of ancient Greek and Persian civilizations to the time when maritime exchanges between Europe and Asia exceeded those on land Starting with the genesis and features of
