mathematics of the carpenter the aesthetic and intellectual dexterity of the hair stylist our failure to acknowledge or respect
these qualities has undermined a large portion of America's working population In The Mind at Work award winning writer
Mike Rose sets the record straight by taking a long hard look at the intellectual demands of common work Integrating
personal stories of his own working class family with interviews vivid snapshots of people on the job and current research in
social science and cognitive psychology Rose draws a brilliantly original portrait of America at work As he probes the
