## **Training For Nursing Intake For 2016:**

*Migration in a Globalizing World* Adiku, Geraldine, Anamzoya, Alhassan Sulema, 2018-06-21 Migration has assumed growing significance in the global development agenda as its potential for economic and social development is increasingly acknowledged. Within the Africa context, perceptions of migration as a negative phenomenon have shifted to recognition of its central role to Africa's transformation. Despite this shift, emerging migration dynamics have not been adequately contextualized and conceptualized, making it difficult to integrate migration into development planning processes. This book attempts to fill the gaps in migration knowledge production, particularly from the perspectives of researchers in the global south and more specifically from Ghana. The chapters provide multi-disciplinary perspectives in the contemporary migration landscape in Ghana and Africa. Rather than focus on migration as a problem to be solved, the chapters explore migration as an intrinsic part of the broader processes of structural change in Ghana, which could create opportunities for development if properly harnessed. This reader is an essential resource for migration and development researchers, students, policy makers, practitioners, and others interested in the field of development.

**School Nursing** Janice Selekman, Robin Adair Shannon, Catherine F Yonkaitis, 2019-07-01 Produced in cooperation with the National Association of School Nurses, this text includes comprehensive coverage of the multiple facets of school nursing, from the foundations of practice and the roles and functions of a school nurse through episodic and chronic illness and behavioral issues to legal issues and leading and managing within school settings. Written and edited by school nurses and pediatric experts, it features real-world tested best practices based on evidence and experience. There's content here that you won't find in other books such as health assessments, individualized health plan development, mental health conditions including adolescent depression, contemporary legal issues, and current policy statements essential to school nursing.

**Beyond Native-Speakerism** Stephanie Ann Houghton, Damian J. Rivers, Kayoko Hashimoto, 2018-06-14 Despite unsubstantiated claims of best practice the division of language teaching professionals on the basis of their categorization as native speakers or non native speakers continues to cascade throughout the academic literature It has become normative under the rhetorical guise of acting to correct prejudice and or discrimination to see native speakerism as having a single beneficiary the native speaker and a single victim the non native speaker However this unidirectional perspective fails to deal with the more veiled systems through which those labeled as native speakers and non native speakers are both cast as casualties of this questionable bifurcation This volume documents such complexities and aims to fill the void currently

observable within mainstream academic literature in the teaching of both English and Japanese foreign language education By identifying how the construct of Japanese native speaker mirrors that of the native speaker of English the volume presents a revealing insight into language teaching in Japan Further taking a problem solving approach this volume explores possible grounds on which language teachers could be employed if native speakerism is rejected according to experts in the fields of intercultural communicative competence English as a Lingua Franca and World Englishes all of which aim to replace the native speaker model with something new
