Leader's Guide to Storytelling Mark Dailey,2021-10-20 Part manual part memoir and part call to action this book

demonstrates why the core skill needed by leaders in the next decade and into the future will be authentic and effective communication. Communications based on character integrity and values will be critical in helping leaders navigate the two mega trends of accelerated technological change and increasing demands for social change. This book is the first to marry practical advice on deepening communication skills with insight from a coaching and cognitive point of view into what techniques work and why and to pull together the wider societal issues and the operating context for leaders. Counter intuitive and written to provoke thought and awareness, the author looks at the psychological and emotional effects of our communications and what leaders can do to inspire and engage, guiding them through three sections: A framework for effective communications; A toolkit detailing what good looks like in practical situations; The authentic leader: an exploration of the changing communications landscape and why a different kind of leadership is needed. C-suite executives, leaders about to take that last step into the C-suite or millennial leaders about to enter the boardroom will value this book as an advisory guide, as a handbook to be used in internal coaching and training sessions and as a manual and aide memoir for themselves.
