Nightly Business Report 2009:

Electronic Media Norman J. Medoff, Barbara Kaye, 2013-03-20 *Electronic Media* connects the traditional world of broadcasting with the contemporary universe of digital electronic media. It provides a synopsis of the beginnings of electronic media in broadcasting and the subsequent advancements into digital media. Underlying the structure of the book is a See It Then See It Now See It Later approach that focuses on how past innovations lay the groundwork for changing trends in technology providing the opportunity and demand for change in both broadcasting and digital media. FYI and Zoom In boxes point to further information tying together the immediate and long ranging issues surrounding electronic media. Career Tracks feature the experiences of industry experts and share tips in how to approach this challenging industry. Check out the companion website at <http://www.routledge.com/cw/medoff/9780240812564> for materials for both students and instructors.

Bending History Martin S. Indyk, Kenneth G. Lieberthal, Michael E. O'Hanlon, 2013-09-04 By the time of Barack Obama's inauguration as the 44th president of the United States he had already developed an ambitious foreign policy vision. By his own account he sought to bend the arc of history toward greater justice, freedom, and peace. Within a year he was awarded the Nobel Peace Prize largely for that promise. In *Bending History*, Martin Indyk, Kenneth Lieberthal, and Michael O'Hanlon measure Obama not only against the record of his predecessors and the immediate challenges of the day but also against his own soaring rhetoric and inspiring goals. *Bending History* assesses the considerable accomplishments as well as the failures and seeks to explain what has happened. Obama's best work has been on major and pressing foreign policy challenges: counterterrorism policy including the daring raid that eliminated Osama bin Laden; the reset with Russia; managing the increasingly significant relationship with China; and handling the rogue states of Iran and North Korea. Policy on resolving the Israeli-Palestinian conflict, however, has reflected serious flaws in both strategy and execution. Afghanistan policy has been plagued by inconsistent messaging and teamwork. On important softer security issues, from energy and climate policy to problems in Africa and Mexico, the record is mixed. As for his early aspiration to reshape the international order according to greater roles and responsibilities for rising powers, Obama's efforts have been well conceived but of limited effectiveness. On issues of secondary importance, Obama has been disciplined in avoiding fruitless disputes, as with Chavez in Venezuela and Castro in Cuba, and insisting that others take the lead, as with Qaddafi in Libya. Notwithstanding several missteps, he has generally managed well the complex challenges of the Arab awakenings, striving to strike the right balance between U.S. values and interests. The authors see Obama's foreign policy to date as a triumph of discipline and realism over ideology. He has been neither the transformative beacon his devotees have wanted nor the weak apologist for America that his critics allege. They conclude that his grand strategy for promoting American interests in a tumultuous world may only now be emerging and may yet be curtailed by conflict with Iran. Most of all, they argue that he or his successor will have to embrace U.S. economic renewal as the core foreign policy and national security challenge of the future. [Confirmation Hearings on](#)

Whitewashing War explores perhaps the most critical issue social studies educators presently face How do we teach our students about war In this timely book Christopher Leahey investigates how the political struggles over the social studies curriculum the corporate domination of the textbook and testing industry and the curricular constraints of the No Child Left Behind Act combine to stifle historical inquiry and deprive students of meaningful social studies instruction Using the controversial Vietnam War as a case study Leahey holds textbook narratives up to the light illuminating how the adoption process interpretive framework and selection of evidence combine to transform the past into thinly veiled historical myths By attending to questions traditionally ignored in history education this dynamic book Challenges educators to rethink their pedagogical approaches to military conflict American and otherwise Calls on teachers to develop students critical sensibilities to ask questions conduct research evaluate evidence and make meaning of the past Provides classroom lessons for history educators and students to engage in rich intellectual encounters with the historical record Christopher R Leahey teaches world history in upstate New York His articles have appeared in Social Education and The Social Studies If students are to be prepared for the challenges of the 21st century then we need to provide inspired interdisciplinary instruction that can provide the skills values and knowledge to enable our future citizens with the possibility promise and perspective to transform their world Whitewashing War provides that solid interdisciplinary framework for teachers and students to teach and learn about the myth of war Critical Education Leahey echoes a concern expressed by others that history textbooks fail to address the realities of war CHOICE The crowning achievement of Whitewashing War is that it clearly illustrates the necessity of pursuing rational answers about why things are as they are or were as they were It becomes clear upon reading this book that if we help our students pursue rational answers in the course of creating personally meaningful understandings of the world they will figure out just what it is that needs to be done From the Foreword by E Wayne Ross University of British Columbia The author has done a masterful job of exploring issues of historiography pedagogy textbook debates and critical thinking Through a deep examination of two historical turning points in the Vietnam War he has contrasted the known facts of these periods with the accounts contained in the textbooks Rick Ayers Graduate School of Education UC Berkeley A passionate and powerful analysis Christopher Leahey provides penetrating insight into how Americans teach about their wars As such his book is an invaluable aid to understanding the past and its connection to our current predicament Fredrik Logevall Cornell University Whitewashing War challenges the fundamental assumptions underlying the corporate regime of standards textbooks and testing and exposes the distortions manipulation and lies that result Leahey builds a compelling case for critical inquiry and dialogue Highly recommended Ronald W Evans San Diego State University author of The Social Studies Wars

Funding Journalism in the Digital Age Jeff Kaye, Stephen Quinn, 2010 The news media play a vital role in keeping the public informed and maintaining democratic processes But that essential function has come under threat as emerging technologies and changing social trends sped up by global economic

turmoil have disrupted traditional business models and practices creating a financial crisis Quality journalism is expensive to produce so how will it survive as current sources of revenue shrink Funding Journalism in the Digital Age not only explores the current challenges but also provides a comprehensive look at business models and strategies that could sustain the news industry as it makes the transition from print and broadcast distribution to primarily digital platforms The authors bring widespread international journalism experience to provide a global perspective on how news organizations are evolving investigating innovative commercial projects in the United States United Kingdom Australia Norway South Korea Singapore and elsewhere

Money Talks Brenda Berger, Stephanie Newman, 2012-03-12 Sometimes referred to as the last taboo money has remained something of a secret within psychoanalysis Ironically while it is an ingredient in almost every encounter between analyst and patient the analyst's personal feelings about money are rarely discussed openly or in any great depth So what is it about money that relegates it to the background both on the couch and off In *Money Talks* Brenda Berger Stephanie Newman and their excellent cast of contributors address this and other questions surrounding the tender topic of money how we talk about it and how it talks to us Its multiple meanings are explored in the contexts of patients and analysts and the ways in which they relate in the training and practice of the analysts themselves as well as the psychological and cultural consequences of having too much or too little in both flush and tight economic times Throughout a clinical sensibility is brought to bear on money's softly spoken place in therapy and life *Money Talks* paves the way for an open discourse into the psychology of money and its pervasive influence on the psyche of both patient and analyst

One Nation under AARP Frederick Lynch, 2011-06-20 This book provides a fresh and even handed account of the newly modernized AARP formerly the American Association of Retired Persons the 40 million member insurance giant and political lobby that continues to set the national agenda for Medicare and Social Security Frederick R Lynch addresses AARP's courtship of 78 million aging baby boomers and the possibility of harnessing what may be the largest ever senior voting bloc to defend threatened cutbacks to Social Security Medicare and under funded pension systems Based on years of research interviews with key strategists and analyses of hundreds documents *One Nation under AARP* profiles a largely white generation raised in the relatively tranquil 1950s and growing old in a twenty first century nation buffeted by rapid economic cultural and demographic change Lynch argues that an ideologically divided boomer generation must decide whether to resist entitlement reductions through its own political mobilization or by default to empower AARP as it tries to shed its greedy geezer stereotype with an increasingly post boomer agenda for multigenerational equity

The Fourth Annual National Institute on Securities Fraud, 2009 Past Due Peter S. Goodman, 2009-09-15 How Main Street was hit by and might recover from the financial crisis by The New York Times's national economics correspondent When the financial crisis struck in 2008 Main Street felt the blow just as hard as Wall Street The New York Times national economics correspondent Peter S Goodman takes us behind the headlines and exposes how the flow of capital from Asia and Silicon Valley to the suburbs of

the housing bubble perverted America's economy. He follows a real estate entrepreneur who sees endless opportunity in the underdeveloped lots of Florida until the mortgages for them collapse. And he watches as an Oakland, California-based deliveryman unable to land a job in the biotech industry slides into unemployment and a homeless shelter. As Goodman shows for two decades, Americans binged on imports and easy credit, a spending spree abetted by ever-increasing home values, and then the bill came due. Yet even in a new environment of thrift and pullback, Goodman argues that economic adaptation is possible through new industries and new safety nets. His tour of new businesses in Michigan, Iowa, South Carolina, and elsewhere, and his clear-eyed analysis, point the way to the economic promises and risks America now faces.

Financial Justice Larry Kirsch, Robert N. Mayer, 2013-05-09 This provocative and accessible narrative recounts the inside story of how a broad-based people's campaign was mobilized and subsequently succeeded in pushing Congress to create a consumer financial regulator with clout. What would Congress do if anything to tame Wall Street and the nation's lenders following the financial meltdown of 2008? This book tells the true story of how an alliance of consumer, civil rights, labor, fair lending, and other progressive groups emerged to effectively challenge Wall Street and its official protectors and to win substantial new legislative reforms, actions that resulted in the Dodd-Frank Act and its path-breaking Consumer Financial Protection Bureau (CFPB). Based largely on in-depth interviews with the leading activists involved in the campaign, Financial Justice: The People's Campaign to Stop Lender Abuse taps into the world of contemporary citizen movements to present evidence into the conditions that determine the success and failure of social movement campaigns. It goes well beyond general global variables such as effective management to show how the formal and informal rules adopted by a campaign can serve to preclude fragmentation and incoherence.

Principles of Supply Chain Management Richard E. Crandall, William R. Crandall, Charlie C. Chen, 2014-12-11 The second edition of this popular textbook presents a balanced overview of the principles of supply chain management. Going beyond the usual supply chain text, Principles of Supply Chain Management not only details the individual components of the supply chain but also illustrates how the pieces must come together. To show the logic behind why supply chain management is important, the book illustrates how the pieces must come together. To show the logic behind why supply chain management is important, the book illustrates how the pieces must come together.

Buy--DON'T Hold Leslie N. Masonson, 2010-03-01 Buy and hold investors hope for the best over the long term, but unfortunately every three to four years, like clockwork, bear markets decimate their portfolios. In the last decade, there were two devastating bear markets that wiped out 50% of investor portfolio values, not once but twice. These huge losses resulted in millions of investors having to delay their retirement plans, postpone funding of college education for children and grandchildren, and delay life's many joys. You simply can't afford to be invested during these inevitable large-scale declines. Now you can use an easy-to-use investing strategy that delivers better returns with far less risk than buy and hold. Leslie N. Masonson, stock market investor, researcher, and author, helps you regain control over your portfolio using low-cost, low-risk ETFs selected with his unique Stock Market Dashboard that reliably signals market bottoms and tops and can tell you exactly when to get in and out. When it is time to invest, Masonson shows how to use Relative Strength Analysis to purchase the

strongest ETF market segments with the best growth potential He provides a specific investing approach and strategy for individuals with three different levels of risk tolerance conservative moderate and aggressive Replete with examples Buy Don't Hold contains all the easy to use information you need to craft an investing strategy that meets your needs lets you sleep at night and reaps rewards in bull and bear markets alike Stock Trader's Almanac 2011 Top Investment Book

Childhood Under Siege Joel Bakan, 2011 Computer game designers craft techniques to titillate children with sex and violence while social media developers infiltrate and shape children's social and emotional worlds to compel them to spend more and more monetizable time online America's schools are being transformed into profit centers while children are subjected to increasingly regimented teaching that thwarts curiosity and creativity numbing the joy of learning And children's chronic health problems from asthma to cancer autism and birth defects steadily escalate as thousands of new industrial chemicals are dumped into their environments Nelson Mandela once sagely remarked that there can be no keener revelation of a society's soul than the way it treats its children The problem today as Joel Bakan reveals is that business interests have made protecting children extremely difficult

American Business Regulation William Lesser, 2015-03-26 While there are lengthy texts discussing the economics of why and how governments regulate business and apply antitrust this book is unique in providing the details of current business regulation in many industries through lengthy examples the author develops with the use of cases including Harvard Business School cases Students are then guided to devise business strategies of introducing new products within the scope of regulation known or unknown While the economic theories of regulation are covered the focus of this text is a hands on coping with regulation and using regulation as a business strategy to deal with competitors Online instructor's materials are also available for adopters

[Quicklet on Daniel Kahneman's Thinking, Fast and Slow \(CliffsNotes-like Summary, Analysis, and Commentary\)](#) Adam McKibbin, 2012-03-02 ABOUT THE BOOK While experts have roundly debunked the popular notion that we feeble humans only utilize 10 percent of our brains most of us still find ourselves secretly believing or wishing that there is uncharted territory upstairs to explore As we get older our brains well I don't want to speak for you so I'll say my brain increasingly fills with useless detritus I will thus forget to buy a necessary item at the store but will be able to sing along lyric for lyric with some old Def Leppard song during the drive home Self help books that promise to unlock your secret brainpower will mostly peddle you the same old platitudes Where to turn when you want to take a serious tour through your own thought process Daniel Kahneman's Thinking Fast and Slow hit the bulls eye for me While not a self help book by any traditional definition Kahneman's work offers actionable insights about decision making and gut reactions that did indeed help me to help myself By breaking the brain into two separate and sometimes competing components System 1 and System 2 the author helps the reader recognize some very common pratfalls

MEET THE AUTHOR Adam McKibbin's work has appeared in a wide variety of magazines and websites including The Nation the Chicago Tribune AlterNet Paste and Punk Planet He studied creative writing at the University of Wisconsin and received

the Award for Academic Excellence for his collected fiction Adam lives in Los Angeles with his wife and daughter and can be found on Twitter at TheRedAlert

EXCERPT FROM THE BOOK In one example the reader is asked to picture a passenger on the New York subway reading the Times and to guess whether the person has a PhD or didn't go to college at all The common gut reaction is to pick the PhD even though there are far fewer PhDs on the subway at a given time than passengers without college degrees Not just taking a situation at its face value even statistically speaking runs counter to how System 1 is programmed to operate Kahneman sprinkles some academic autobiography through the book as well Part 2 includes a section on what he calls the best known and most controversial of his experiments with Amos Tversky a seemingly simple question about a young woman named Linda Linda is introduced to the crowd as a young woman who majored in philosophy and kept active with various social causes Kahneman's audience then had to choose the most likely outcome for Linda Was she a bank teller or a bank teller who was active in the feminist movement Although the former is the smarter choice an overwhelming number of undergraduates chose the latter due to the associations they were making about Linda Even renowned scientist Stephen Jay Gould fell into the trap Buy a copy to keep reading
