Tomlinson, 2018-12-14 Simply put medium format photography is quite a bit more complex than shooting with 35mm film SLRs or 35mm style DSLRs It takes a bit more skill and experience to handle medium format cameras Not only do you need to learn to think differently about how you shoot but you also have a whole new type of equipment to learn Medium format cameras produce bigger images which allows for more detail and greater enlargement And because they in general were designed for professional photographers the lenses tend to be of better quality than most 35mm lenses which also adds to the

detail in the images In this book we ll take a look at medium format SLRs and TLRs and we ll even touch upon some other types We ll also consider a few lenses although these largely are a matter of choice And there are far fewer choices for medium format cameras than for other types Time to do some weight training and heft those medium format cameras and lenses into position Let s go *Digital Photography for Creative Professionals* Lee Varis,2003 **The Certified Diver's Handbook : The Complete Guide to Your Own Underwater Adventures** Clay Coleman,2004-04-26 The real world guide for divers who want to enjoy their sport to the fullest More than half of the 1.5 million people who achieve scuba certification each year are stymied in their pursuit of the sport because they lack time and money to enjoy the exotic diving experiences they ve read about and don t want to be confined to group dives The Certified Diver s Handbook is the only guide to help them create their own diving adventures on any budget on any schedule in waters local or distant and without the restrictions of group demands Thirty year diving veteran and photojournalist Clay Coleman provides the insider s tips and how to advice divers need to equip plan and execute their own diving expeditions Divers will learn how to Buy or rent the best SCUBA equipment at the best prices Plan dives to maximize enjoyment and safety Find great diving sites close to home Master underwater rescue procedures and shore and night diving techniques Explore wrecks reefs and underwater caves
