Autel Ultra EV: Revolutionary Solution for EVs

Why Autel has Developed Special Diagnostic Tools for New Energy Vehicles?

- **The car structure of EVs is different from f-fuel cars:** Unlike f-fuel vehicles, the problems of new energy vehicles are not scattered among the various systems but are mainly focused on the electronic control system and the battery. Traditional diagnostic scanners are unable to conduct comprehensive problem troubleshooting for electric vehicles.
- **Traditional scanners cannot diagnose EVs:** They cannot diagnose the high-voltage system of EVs; obtain detailed information on each module of the battery pack and locate faults, or diagnose electric control modules such as motors.
- **Insufficient experience in EV diagnostics:** Due to the high technical requirements for mechanics and the danger of the operation, there are currently few mechanics who can perform the diagnostics for EVs. Our scanner Ultra EV, as an expert, can provide video graphics as well as guidance and safety tips for you.
- In this way, we have developed the EV box and a set of adapters to meet the diagnostic needs of new energy vehicles, diagnose the high-voltage system and perform battery pack analysis.

How can Ultra EV help you with new energy vehicles diagnostics?

Display an all-in-one status of the battery pack's State of Charge (SoC), State of Health (SoH), overall voltage and temperature, and a detailed analysis of each battery module.

Battery pack maintenance recommendations are provided based on the monitoring of voltage averages and differences as well as the maximum and minimum voltages of the battery module.

One-stop information source for all these vehicles with detailed battery information, including battery brand and module locations, and **system block diagram** with component introduction and connection, socket diagram, and disassembly guides.

In-depth **safety information and step-by-step inspection guidance** to ensure technicians can diagnose, service, and repair these vehicles safely and efficiently.
