Neuroscience perspectives on Security: Technology, Detection, and Decision Making Elena Rusconi,Kenneth C. Scott-Brown,Andrea Szymkowiak,2015-08-03 In security science efficient operation depends typically on the interaction between technology human and machine detection and human and machine decision making A perfect example of this interplay is gatekeeping which is aimed to prevent the passage of people and objects that represent known threats from one end to the other end of an access point Gatekeeping is most often achieved via visual inspections mass screening random sample probing and or more targeted controls on attempted passages at points of entry Points of entry may be physical e g national borders or virtual e g connection log ons Who and what are defined as security threats and the resources available to gatekeepers determine the type of checks and technologies that are put in place to ensure appropriate access control More often than not the net performance of technology aided screening and authentication systems ultimately depends on the characteristics of human operators Assessing cognitive affective behavioural perceptual and brain processes that may affect gatekeepers while undertaking this task is fundamental On the other hand assessing the same processes in those individuals who try to breach access to secure systems e g hackers and try to cheat controls e g smugglers is equally fundamental and challenging From a security standpoint it is vital to be able to anticipate focus on and correctly interpret the signals connected with such attempts to breach access and or elude controls in order to be proactive and to enact appropriate responses Knowing cognitive behavioral social and neural constraints that may affect the security enterprise will undoubtedly result in a more effective deployment of existing human and technological resources Studying how inter observer variability human factors and biology may affect the security agenda and the usability of existing security technologies is of great economic and policy interest In addition brain sciences may suggest the possibility of novel methods of surveillance and intelligence gathering This is just one example of a typical security issue that may be fruitfully tackled from a neuroscientific and interdisciplinary perspective The objective of our Research Topic was to document across relevant

disciplines some of the most recent developments ideas methods and empirical findings that have the potential to expand our knowledge of the human factors involved in the security process To this end we welcomed empirical contributions using different methodologies such as those applied in human cognitive neuroscience biometrics and ethology We also accepted original theoretical contributions in the form of review articles perspectives or opinion papers on this topic The submissions brought together researchers from different backgrounds to discuss topics which have scientific applicative and social relevance

Science John Michels (Journalist),2011 *Cognitive Enhancement in Psychiatric Disorders* Tomiki Sumiyoshi,Kenji Hashimoto,2019-11-25 Disturbances of various domains of cognitive function have been shown to provide a major determinant of outcome for patients with psychiatric conditions Cognitive impairment is present in an array of diseases including schizophrenia with its prodromal stage mood disorder autism spectrum disorder obsessive compulsive disorder anxiety disorder post traumatic disorder and eating disorder In an effort to develop effective therapeutics for cognitive impairment bridging of preclinical and clinical evidence has been attempted This edited Book will provide a forum for researchers and clinicians interested in the phenomenology underlying mechanisms and treatment of cognitive impairment associated with psychiatric illnesses Twenty eight contributions from 8 countries in Europe Middle East Asia North America and South America represent studies dealing with genetic molecular imaging physiological psychological and behavioral issues Information in this Book will facilitate the development of therapeutics of greater clinical value

Neural responses for rehabilitation of the elderly: Evidence from the micro, meso to macro scale Le Li,Chuhuai Wang,Howe Liu,Sheng Li,Wenxin Niu,2023-06-07 *The Architecture Student's Handbook of Professional Practice* American Institute of Architects,2017-01-09 The essential guide to beginning your career in architecture The Architecture Student s Handbook of Professional Practice opens the door to the vast body of knowledge required to effectively manage architectural projects and practice A professional architect is responsible for much more than design this book is specifically designed to help prepare you for the business and administrative challenges of working in the real world whether you are a student or are just starting out in practice It provides clear insight into the legal financial marketing management and administrative tasks and issues that are integral to keeping a firm running This new edition has been restructured to be a companion textbook for students undertaking architectural practice classes while also fulfilling the specific knowledge needs of interns and emerging professionals It supplements information from the professional handbook with new content aimed at those setting out in the architectural profession and starting to navigate their careers New topics covered in this new edition include path to licensure firm identity professional development strategic planning and integrated project delivery Whether you want to work at a top firm strike out on your own or start the next up and coming team the business of architecture is a critical factor in your success This book brings the fundamentals together to give you a one stop resource for learning the reality of architectural practice Learn the architect s legal and ethical responsibilities Understand the processes of starting and

running your own firm Develop manage and deliver projects on time and on budget Become familiar with standard industry agreements and contracts Few architects were drawn to the profession by dreams of writing agreements and negotiating contracts but those who excel at these everyday essential tasks impact their practice in innumerable ways The Architecture Student s Handbook of Professional Practice provides access to the nuts and bolts that keep a firm alive stable and financially sound

Innovative Technologies and Clinical Applications for Invasive and Non-Invasive Neuromodulation: From the Workbench to the Bedside Matteo Bologna,Aristide Merola,Lucia Ricciardi,2020-02-13 The possibility of harvesting the power of electric and magnetic impulses in the human body commonly referred to as neuromodulation is one of the most recent and promising developments of the modern science Since the late 60s multiple invasive and non invasive technologies have been developed and tested in experimental and clinical settings with the final aim of modulating the function of the central and peripheral nervous system Clinical applications include but are not limited to common neurological disorders such as Parkinson s disease and other movement disorders The bulk of evidence supporting the clinical efficacy of various invasive and non invasive approaches for neuromodulation has progressively led scientific societies patients associations and regulatory entities to acknowledge the critical role played by neuromodulation in the therapeutic algorithms of a wide range of neurological disorders As a result new technologies have been recently introduced into the market or are currently under validation Their potential implementation into innovative protocols for neuromodulation demands a critical revision of what are the unmet needs for neuromodulation in movement disorders

Vulchanova,Valentina Riva ,David Saldaña,2024-07-02 Some specific physical and medical conditions are well recognized to be more common in autistic individuals compared to the general population e g sleep wake disorders epilepsy sensory impairments However the prevalence and the impact on autistic individuals and their families of other physical and medical conditions such as cardiovascular conditions cancer musculoskeletal conditions food intolerance allergies autoimmune problems diabetes and neurocutaneous disorders have yet to be established The presence of such co occurring conditions affects the success of treatment and worsens the quality of life of autistic individuals and their carers Importantly the awareness of the presence of specific physical and medical conditions associated with autism allows for targeted interventions and better outcomes *The Academy* ,1896 *The St. Andrews University Calendar for the Year ...*

University of St. Andrews,1920 **Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations for 1991** United States. Congress. House. Committee on Appropriations. Subcommittee on VA, HUD, and Independent Agencies,1990 Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations for 1991: Federal Emergency Management Agency United States.

Congress. House. Committee on Appropriations. Subcommittee on VA, HUD, and Independent Agencies,1990 Human Enhancement Technologies and Our Merger with Machines Woodrow Barfield,Sayoko Blodgett-Ford,2021-06-15 A cross disciplinary approach is offered to consider the challenge of emerging technologies designed to enhance human bodies and minds Perspectives from philosophy ethics law and policy are applied to a wide variety of enhancements including integration of technology within human bodies as well as genetic biological and pharmacological modifications Humans may be permanently or temporarily enhanced with artificial parts by manipulating or reprogramming human DNA and through other enhancement techniques and combinations thereof We are on the cusp of significantly modifying and perhaps improving the human ecosystem This evolution necessitates a continuing effort to re evaluate current laws and if appropriate to modify such laws or develop new laws that address enhancement technology A legal ethical and policy response to current and future human enhancements should strive to protect the rights of all involved and to recognize the responsibilities of humans to other conscious and living beings regardless of what they look like or what abilities they have or lack A potential ethical approach is outlined in which rights and responsibilities should be respected even if enhanced humans are perceived by non enhanced or less enhanced humans as no longer human at all **The Modern Review** Ramananda Chatterjee,1929

Includes section Reviews and notices of books **Non-invasive Brain Stimulation in Neurology and Psychiatry** Ignacio

Obeso, Antonio Oliviero, Marjan Jahanshahi, 2017-04-11 The potential efficacy of non invasive brain stimulation procedures for the management of specific symptoms in diverse neurological and psychiatric conditions has been tested in the past decade or so For example repetitive transcranial magnetic stimulation rTMS over prefrontal areas has been extensively investigated as a treatment for patients with medication resistant depression and has been shown to be associated with improvement of mood Similarly non invasive stimulation techniques have been applied to various symptoms of Parkinson s disease such as bradykinesia and dyskinesias with variables degrees of success reported However attempts to expand previously observed clinical improvements to other neurological disorders e g Tourette s syndrome autism epilepsy has been controversial In trying to bypass potential confounding elements researchers aim to target neural populations altered in disease to either increase or decrease their corrupted baseline activity In addition a complementary approach is to extend stimulation protocols that results enhanced behavior in healthy participants This Frontiers Research Topic on non invasive brain stimulation and enhancement of function tries to combine a series of articles from researchers who used non invasive brain stimulation to aim improvement of either a motoric cognitive or behavioral nature investigated behaviorally physiologically or using brain imaging techniques in clinical populations Investigation of the relation between enhancement of function in healthy populations and clinical improvement in patients with neurological or psychiatric disorders needs further consideration

how to open operate a financially successful import export business - Aug 09 2022

web apr 27 2017 how to open operate a financially successful import export business by maritza manresa 2010 atlantic pub group edition in english

how to open operate a financially successful pers carla - Oct 31 2021

web how to open operate a financially successful pers is approachable in our digital library an online permission to it is set as public fittingly you can download it instantly our digital library saves in merged countries allowing you to acquire the most less latency era

pdf slotted waveguide tutorial using hfss researchgate - Sep 21 2023

pdf on jan 1 2004 hussain al rizzo published slotted waveguide tutorial using hfss find read and cite all the research you need on researchgate

waveguide simulation in hfss forum for electronics - May 05 2022

apr 13 2018 40 hello i am trying to simulate a simple waveguide using wave port in both ends all seems to work but i get several warnings saying discrete solution process hf3d port port1 supports an additional propagating and or slowly decaying mode whose attenuation is xxxx and propagation constant is xxxx simulating on machine localhost xxxx

hfss waveguide cavity slot antenna 2022 - Jul 07 2022

hfss waveguide cavity slot antenna 3 3 achieve wide axial ratio ar bandwidth the design of high gain substrate integrated waveguide slotted waveguide antennas on the top wall of the waveguide where the slots are the induced

electronics free full text cavity backed slot antenna fed by - Mar 03 2022

jan 20 2022 the feeding structure consists of a slot on the top side of the applicator cavity the slot is fed by a shielded asymmetric stripline with a substrate integrated waveguide structure to preserve the stripline transversal electro magnetic tem operation within the shield and is n connectorized

substrateintegratedwaveguide cavitybacked wideband - Jun 18 2023

5g applications cavity backed slotted antenna sub strateintegratedwaveguide siw wideband 1 introduction the fifth generation 5g is an mobile technology in order to meet the high data rate requirements high band width improved security with shorter latency in coming years over 4g systems

how to design waveguide slot antenna in hfss researchgate - Dec 12 2022

Loughborough University first of all you have to make hollow rectangular waveguide you have to take rectangle according to your frequency take it as a copper Al etc and select another

hfss waveguide cavity slot antenna copy origin locationsciences - Feb 02 2022

Rod excited waveguide slot antenna simulation hfss waveguide cavity slot antenna enhanced gain planar substrate integrated waveguide cavity dual band low profile SIW cavity backed antenna by using substrate integrated waveguide technology for wireless cavity backed slot antenna IJARCSEE hfss waveguide cavity slot

design and simulation of a waveguide slot antenna IEEE Xplore - Mar 15 2023

May 30 2012 Due to low efficiency in waveguide slot antenna design this paper proposes a method which combines numerical calculation with numerical simulation we apply slot self admittance extracted from the software to the active admittance formula then the normalized slot active admittance is obtained

hfss waveguide cavity slot antenna pdf analytics mirowin - Apr 04 2022

4 4 hfss waveguide cavity slot antenna 2021 08 17 High band frequencies the VSWR is less than 2.7:1 from 240 to 279 MHz and under 2.1:1 from 290 to 400 MHz for

wideband slot array antenna fed by gap waveguide with right hindawi - Sep 09 2022

May 18 2021 Abstract A wideband and high gain circularly polarized CP 16x16 array antenna based on gap waveguide technology is presented for millimeter wave applications at 28 GHz frequency range four cavity backed slots with linear polarized LP radiation are used as the subarray

quad band substrate integrated waveguide cavity backed slot antenna - Apr 16 2023

Apr 7 2022 In this paper low profile cavity backed cross shaped slot antenna using substrate integrated waveguide SIW technology is proposed for obtaining quad band response in order to generate four distinct frequencies a crossed slot is etched on the back of the dielectric substrate and three balanced shorting vias metallic vias are included

slot antenna wikipedia - Jun 06 2022

Slot antennas are usually used at UHF and microwave frequencies at which wavelengths are small enough that the plate and slot are conveniently small at these frequencies the radio waves are often conducted by a waveguide and the antenna consists of slots in the waveguide this is called a slotted waveguide antenna

design and simulation of slotted waveguide antenna array for x - Jul 19 2023

A slotted waveguide antenna array is designed and simulated using hfss for a frequency of 10.5 GHz the simulated design of slotted waveguide antenna array offers a return loss of 32.685 dB and a VSWR of 1.016 the antenna exhibits a gain of 15.378 dB and a peak gain of 35.245 dB it is horizontally polarized with a bandwidth percentage of 9

study on waveguide slots using hfss academia edu - Oct 10 2022

study on waveguide slots using hfss gjesrm journal in this paper we present the design of wr975 waveguide using hfss simulation software the slot present in the wave guide will cause the waveguide to radiate and act as an antenna another slot is also kept to check the results with a single slot and compared see full pdf download pdf

design of dual band bow tie slot antenna by using hfss - Aug 08 2022

aug 16 2018 in this design a modified loop strips of bow tie slot antenna fed by lengthened asymmetric coplanar waveguides to improve gain and for better impedance matching at x band and c band in this

low profile high gain slot antenna using polarization and - Feb 14 2023

jan 7 2022 the design of a low profile high gain substrate integrated waveguide siw cavity backed slot antenna operating in the frequency band of 8 08 8 33 ghz is achieved by using the mtm in the superstrate the peak realized gain of the proposed antenna is 8 22 dbi which is 96 5 of the maximum attainable gain obtained from the harrington limit

chalmers publication library - Nov 11 2022

abstract a wideband 2 2 slot element for a 60 ghz antenna array is designed by making use of two double sided printed circuit boards pcbs the upper pcb contains the four radiating cavity backed slots where the cavity is formed in substrate integrated waveguide siw using metalized via holes

low profile hexagonal siw cavity slot antenna with enhanced gain - Jan 13 2023

apr 3 2020 a novel low profile substrate integrated waveguide siw cavity backed slot antenna with an enhanced gain is proposed by etching four parallel transverse slots at the edges of the hexagonal siw cavi

development of a wideband hexagonal siw cavity backed slot antenna - Aug 20 2023

sep 1 2021 in this paper a novel wideband hexagonal cavity backed slot antenna array waveguide siw is proposed first a single element low profile wideband linearly polarized cavity backed antenna using two slots is designed and analyzed the antenna bandwidth is increased by nrws which makes both hybrid modes of tm input impedance keywords

a high performance siw slot antenna array for mmwave radar - May 17 2023

jul 24 2023 the feed network of the antenna is composed of an air filled rectangular waveguide rwg to substrate integrated waveguide siw transition and a power division feed network finally the array element and the feed network are combined to form an 8 times 16 slot array the overall simulation design is carried out in hfss
