Dove, Andrea Honigsfeld, 2017-09-27 Dove and Honigsfeld's new book arrives at the perfect time as an increasing number of schools move to a collaborative instructional model and are searching for guidance. The authors not only tell us how to effectively collaborate and co-teach to benefit English learners; they actually show us what each component of the collaborative instructional cycle looks and feels like, complemented by innovative video and web content. DIANE STAEHR FENNER, Coauthor of *Unlocking ELs' Potential* and President of SupportEd: Because teacher collaboration isn't an option, it's a MUST. The proof is borne out by any assessment: our non-native speakers learn faster and achieve more when general ed teachers and EL specialists co-plan and co-deliver instruction in the very same classroom. That's why you'll want to put *Co-Teaching for English Learners* at the top of your reading list. Step by step, EL authorities Maria Dove and Andrea Honigsfeld walk you through the entire collaborative instruction cycle along with seven potential classroom configurations from which to choose. Whether you're new to co-teaching or just see room for improvement in your practice, this practical handbook delivers every technique and tool you need to make the most of your collaboration, including video footage of co-teaching in action. Inside you'll find in-depth profiles of the seven models with detailed descriptions and analyses, a review of advantages and challenges of each model's implementation, clear explanations of each teacher's role along with self-assessment tools, tried and true strategies for the entire instructional cycle: co-planning, co-instruction, co-assessment, and reflection. Real-life accounts from co-teaching veterans. Long gone are the days when our ELs are taught in isolation, and rightfully so. Read *Co-Teaching for English Learners*, implement its strategies, and soon enough you too can set up a learning environment in which all students thrive.

Hogue, Elie Wiesel, Center for Learning (Rocky River, Ohio), 1992-10-01      Teaching Adolescents Religious Literacy in a Post-9/11 World Robert Nash, Penny A. Bishop, 2009-11-01 For thousands of years religion has been a key element of human societies Whenever we as educators exclude or minimize religion's vast role in society we leave out a large part of our world's shared history This is a serious act of educational omission even neglect on the part of our nation's public middle and secondary schools particularly when adolescents are so ready to engage in meaningful conversation about the world that surrounds them Our book's central purpose is to provide middle level and high school teachers with the necessary background knowledge and pedagogical skills necessary to help adolescents become religiously literate learners and citizens Currently there is no text like ours on the market that both covers a number of world

religions and presents concrete recommendations for teaching and learning this material Our book is meant to educate the following audiences teacher educators middle level and high school teachers in all content areas administrators school boards and parents For us educating for religious literacy is all about bringing adolescents into the 21st century of teeming religious and spiritual diversity a long neglected component of the multicultural curriculum in public schools In a post 9 11 world religious literacy requires that students understand the whats and whys of differing religious beliefs both in their own country and elsewhere It means looking for commonalities as well as differences between and among the great wisdom traditions both nationally and internationally It is about understanding how all of us might live peacefully in a religiously diverse world Our book accomplishes these goals by being informative practical experiential case based and above all accessible to beginners
