Reframed Stuart Shanker, 2020-03-23 For Stuart Shanker the possibility of a truly just and free society begins with how we see and nurture our children. Shanker is renowned for using cutting edge neuroscience to help children feel happy and think clearly by better regulating themselves. In his new book *Reframed* Shanker explores self-regulation in wider social terms. Whereas his two previous books *Calm Alert* and *Learning and Self Reg* were written for educators and parents, *Reframed* the final book in the trilogy unpacks the unique science and conceptual practices that are the very lifeblood of *Self Reg*, making it an accessible read for new *Self Reggers*. *Reframed* is grounded in the three basic principles of Shanker's *Self Reg*. There is no such thing as a bad, lazy or stupid kid. All people can learn to self-regulate in ways that promote rather than constrict growth. There is no such thing as a fixed outcome; trajectories can always be changed at any point in the lifespan if only we have the right knowledge and tools. Only a society that embraces these principles and strives to practice them argues Shanker can become a truly just society. The paradigm revolution presented in *Reframed* not only helps us understand the harrowing time we are living through but inspires a profound sense of hope for the future. Shanker shows us how to build a compassionate society, one mind at a time. *Caring for Caring* Jane Edwards, 2016-07-15 No one wants to relegate our wisdom-rich elders to the demeaning borders of our society. Still, the idea of caring for our elders in their own homes can sometimes become overwhelming, especially without proper guidance from those who have been there.
