Tomlinson,2018-03-20

Photographer and writer Shawn M Tomlinson author of the Photo Curmudgeon column and books makes creating black and white and toned photos simple with this how to guide In a world dominated by colorful images black and white and toned photographs can stand out as something different something somehow more beautiful Tomlinson writes To really work in the 21st century a black and white or toned image must be special It must express something not there in color There must be a reason to change the reality of the image by turning it grayscale not just that you can All that said there is absolutely nothing like a truly great black and white image The author covers the basics of B W and toned photos including processing techniques printing presentation in eBooks and much more This is an expanded and revised edition of the original eBook and trade paperback editions      **Zirlinson Publishing: 35 Years 1983-2018: A History in Cover Art** Shawn M.

Tomlinson,2018-12-16 It has been a long strange road and probably has no end clearly in sight Many more books are in the works as I write this in early December 2018 For example I have published nine novels to date and am writing nine more with plans for some beyond that The Shawn M Tomlinson s Guide to Photography series has 29 titles in print with another

five or six nearly complete and plans for 30 to 40 more I m also trying to rework and rearrange those books into omnibus editions by chronology and by theme I never will get every book done I want to do but it keeps me busy I always planned on putting out a catalog of all the Zirlinson Books but kept getting waylaid for one reason or another until now This catalog is available as a print book in color The color print book will be cost prohibitive for many people so there likely will be a black and white version available too     Vol. 22: Early DSLR Cameras II: Revisiting the Nikon D70 & D70S Shawn M.

Tomlinson,2018-03-16 The Nikon D70 was Nikon s third revolution just in the digital photography age Never mind the major one in 1959 with the Nikon F that changed professional film photography The first was the Nikon D1 started pro digital photography the end of mainstream film The second was the Nikon D100 the first DSLR to reach the lofty heights of 6.1 megapixels Then there was the D70 It looks and feels like a modern DSLR and Nikon released it in 2002 It was in its own way as revolutionary as the D1 and the D100 I ve taken some of my best photos with it The thing is there really is little negative to say about the Nikon D70 D70S You can come up with many reasons to spend more money on a newer DSLR but if you want a great camera for little money the Nikon D70 or D70S is a good bet     **Going Pro for \$500: Revisiting the Nikon D2x**

Shawn M. Tomlinson,2015-10-20 A while back I wrote a guide to the first truly professional and practical DSLR camera the Nikon D1 titled Photography Going Pro for 200 Revisiting the Nikon D1 That volume proved popular and I hope it helped some photographers to get started with their first pro DSLRs The aged D1 may not have the megapixels of modern cameras and it certainly has some frustrating menu items but it is a fun and inexpensive way to get your hands on a pro DSLR without spending a lot of money This book recently was expanded for print and adds details about the Nikon D1x and D1H The thing is that if you are like me once you ve shot with a pro DSLR it makes you hungry for more But those current models the Canon EOS 1Dx and Nikon D4s the latest as of this writing still have huge price tags that can bring tears The best thing is that used you can put your hands on a D2x for less than 400 and get one of the best lenses Nikon makes the Nikon AF D 50mm f 1.8 for another 100     **Design for Community** Derek Powazek,2006-10-11 This book is available as an Adobe Reader eBook on the

publisher s website newriders.com Communities are part of all successful web sites in one way or another It looks at the different stages that must be understood Philosophy Why does your site need community What are your measures of success Architecture How do you set up a site to create positive experience How do you coax people out of their shells and get them to share their experiences online Design From color choice to HTML how do you design the look of a community area Maintenance This section will contain stories of failed web communities and what they could have done to stay on track as well as general maintenance tips and tricks for keeping your community garden growing     **Photography: Getting Started**
