Kids and Media in America Donald F. Roberts,Ulla G. Foehr,2004 This 2003 book reports the only national random sample survey of US children and adolescents use of all of the various media available to them conducted in at least the past 30 years In addition to providing the first comprehensive look at how media saturated our young people's lives have become it is the first study to examine young people's overall media budgets and the first to attempt to describe distinctly different types of young media users Extensive background information and chapters devoted to each of the various media to the overall media budget and to particular types of media users enables the authors to describe perhaps the most detailed map of US young people's media behavior ever assembled

The Rural Voter Nicholas F. Jacobs,Daniel M. Shea,2023-11-21 The widening gulf between rural and urban America is becoming the most serious political divide of our day Support for Democrats up and down the ballot has plummeted throughout the countryside and the entire governing system is threatened by one party dominance After Donald Trump's surprising victories throughout rural America pundits and journalists went searching for answers popping into roadside diners and opining from afar Rural Americans are supposedly bigots culturally backward lazy scared of the future and radical But is it that simple Is the country splintering between two very different Americas one rural one urban This pathbreaking book pinpoints forces behind the rise of the rural voter a new political identity that combines a deeply felt sense of place with an increasingly nationalized set of concerns Combining a historical perspective with the largest ever national survey of rural voters Nicholas F Jacobs and Daniel M Shea uncover how this overwhelmingly crucial voting bloc emerged and how it has roiled American politics They show how perceptions of economic and social change racial anxieties and a traditional way of life under assault have converged into a belief in rural uniqueness and separateness Rural America believes it rises and falls together and that the Democratic Party stands in the way An unparalleled exploration of rural partisanship this book offers a timely warning that the chasm separating urban and rural Americans cannot be papered over with policies or rhetoric Instead The Rural Voter shows how this division is the latest chapter in the enduring conflict over American identity

Abstracts of Active Projects ,1988

The EPA children's environmental health yearbook , *Shaping Summertime Experiences* National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on Summertime Experiences and Child and Adolescent Education, Health, and Safety,2019-12-30 For children and youth summertime presents a unique break from the traditional structure resources and support systems that exist during the school year For some students this time involves opportunities to engage in fun and enriching activities and

programs while others face additional challenges as they lose a variety of supports including healthy meals medical care supervision and structured programs that enhance development Children that are limited by their social economic or physical environments during the summer months are at higher risk for worse academic health social and emotional and safety outcomes In contrast structured summertime activities and programs support basic developmental needs and positive outcomes for children and youth who can access and afford these programs These discrepancies in summertime experiences exacerbate pre existing academic inequities While further research is needed regarding the impact of summertime on developmental domains outside of the academic setting extensive literature exists regarding the impact of summertime on academic development trajectories However this knowledge is not sufficiently applied to policy and practice and it is important to address these inequalities Shaping Summertime Experiences examines the impact of summertime experiences on the developmental trajectories of school age children and youth across four areas of well being including academic learning social and emotional development physical and mental health and health promoting and safety behaviors It also reviews the state of science and available literature regarding the impact of summertime experiences In addition this report provides recommendations to improve the experiences of children over the summertime regarding planning access and equity and opportunities for further research and data collection

Contaminated Communities Michael R

Edelstein,2018-10-08 In this wholly revised second edition Michael Edelstein draws on his thirty years as a community activist to provide a much expanded theoretical foundation for understanding the psychosocial impacts of toxic contamination Informed by social psychological theory and an extensive survey of documented cases of toxic exposure and enlivened by excerpts drawn from more than one thousand Interviews with victims Contaminated Communities Second Edition presents a candid portrayal of the toxic victim's experience and the key stages in the course of toxic disaster The second edition introduces dozens of new cases and provides expanded considerations of environmental justice environmental racism environmental turbulence and environmental stigma as well as a fully articulated theory of lifescape The new edition moves past the well charted role of reactive environmentalism to explore issues for a proactivist approach that employs a third path of social learning sustainable innovation consensus building and community empowerment

Kids and Media at the New

Millennium Donald F. Roberts,2000 The new communication technologies play a major role in the lives of children adolescents who have available an almost continual diet of highly vivid on demand audiovisual images In order to paint a comprehensive picture of children's media environment media use patterns a national study of the media environment media habits of U S children ages 2 through 18 years was undertaken This report includes results for two nationally representative samples totaling 3 155 children ages 2 18 years including over samples of both Black Hispanic children In addition week long media use diaries were collected from 621 of these children
