The Oxford History of Protestant Dissenting Traditions, Volume V Mark P. Hutchinson, 2018-10-17

The five-volume Oxford History of Protestant Dissenting Traditions series is governed by a motif of migration out of England. It first traces organized church traditions that arose in Britain and Ireland as Dissenters distanced themselves from a state church defined by diocesan episcopacy, the Book of Common Prayer, the Thirty-Nine Articles, and Royal Supremacy, but then follows those traditions as they spread beyond Britain and Ireland and also analyses newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent. Secondly, it does the same for the doctrines, church practices, stances toward state and society, attitudes toward Scripture, and characteristic patterns of organization that also originated in earlier British and Irish dissent but that have often defined a trajectory of influence independent of ecclesiastical organizations. The Oxford History of Protestant Dissenting Traditions, Volume V follows the spatial, cultural, and intellectual changes in dissenting identity and practice in the twentieth century as these once-European traditions globalized. While in Europe dissent was often against the religious state, dissent in a globalizing world could redefine itself against colonialism or other secular and religious monopolies. The contributors trace the encounters of dissenting Protestant traditions with modernity and globalization, changing imperial politics, challenges to biblical, denominational, and pastoral authority, local cultures and languages, and some of the century's major themes such as race and gender, new technologies, and organizational change. In so doing, they identify a vast array of local and globalizing illustrations which will enliven conversations about the role of religion and, in particular, Christianity. True Gentlemen John Hechinger, 2017-09-26. An exclusive look inside the power and politics of college fraternities in America as they struggle to survive despite growing waves of criticism and outrage. College fraternity culture has never been more embattled. Once a mainstay of campus life, fraternities are now subject to withering criticism for reinforcing white male privilege and undermining the lasting social and economic value of a college education. No fraternity embodies this problem more than Sigma Alpha Epsilon, a national organization with more than 15,000 undergraduate brothers spread over 230 chapters nationwide. While SAE enrollment is still strong, it has been pilloried for what John Hechinger calls the unholy trinity of fraternity life: racism, deadly drinking, and misogyny. Hazing rituals have killed ten undergraduates in its chapters since 2005, and in 2015 a video of a racist chant breaking out among its Oklahoma University members went viral. That same year, SAE was singled out by a documentary on

campus rape The Hunting Ground Yet despite these problems and others SAE remains a large institution with strong ties to Wall Street and significant political reach In True Gentlemen Hechinger embarks on a deep investigation of SAE and fraternity culture generally exposing the vast gulf between its founding ideals and the realities of its impact on colleges and the world at large He shows how national fraternities are reacting to a slowly dawning new reality and asks what the rest of us should do about it Should we ban them outright or will they only be driven underground Can an institution this broken be saved With rare access and skillful storytelling Hechinger draws a fascinating and necessary portrait of an institution in deep need of reform and makes a case for how it can happen [Rainbow Cattle Co](#) Nicholas Villanueva (Jr),2024 Nicholas Villanueva Jr investigates the untold story of the founders of an organization that helped gay rodeo participants persevere through bigotry and discrimination in sport fought a pandemic that ravaged the LGBTQ community and created a sporting community that became an international family

Animal Architecture Paul Dobraszczyk, 2023-05-17

A provocative call for architects to remember and embrace the nonhuman lives that share our spaces. A spider spinning its web in a dark corner. Wasps building a nest under a roof. There's hardly any part of the built environment that can't be inhabited by nonhumans, and yet we are extremely selective about which animals we keep in or out. This book imagines new ways of thinking about architecture and the more-than-human, and asks how we might design with animals and the other lives that share our spaces in mind. **Animal Architecture** is a provocative exploration of how to think about building in a world where humans and other animals are already entangled, whether we acknowledge it or not.

Stranger in the Birth Room Kathryn

Gutteridge, 2025-07-03 Fills a critical gap in the literature on maternity care: a comprehensive and thoughtful exploration of how we can better understand support and care for survivors of sexual abuse. Sheena Byrom in her foreword: Trauma-informed maternity care is essential for women who are survivors of childhood abuse. Pregnancy and birth can bring up long-suppressed memories and feelings that have implications for women's health and wellbeing as they become mothers. Welcoming a new baby into the family can challenge relationships and distort emotions following birth, affecting partners and bonding with their baby. Kathryn Gutteridge has spent her career as a midwife advocating for the needs of survivor women in maternity care, and this book is the result of that work. She explains how and why the needs of survivors must be taken into account and shows that trauma-informed care can transform the experiences of women who might otherwise be further traumatized by the maternity care system. Drawing on the evidence base, personal experience, and the words of survivors themselves, this carefully conceived and written book will help all those who work in maternity to better understand the needs of survivors of childhood abuse in their care. For those clinicians who are themselves survivors, this book acknowledges the challenges they face and makes suggestions about how they might find solace in supporting women and their babies.

From Head Shops to Whole Foods Joshua C. Davis, 2017-08-08. In the 1960s and 70s, a diverse range of storefronts, including head shops, African American bookstores, feminist businesses, and organic grocers, brought the work of the New Left, Black Power, feminism, environmentalism, and other movements into the marketplace. Through shared ownership, limited growth, and democratic workplaces, these activist entrepreneurs offered alternatives to conventional profit-driven corporate business models. By the middle of the 1970s, thousands of these enterprises operated across the United States, but only a handful survive today. Some, such as Whole Foods Market, have abandoned their quest for collective political change in favor of maximizing profits. Vividly portraying the struggles, successes, and sacrifices of these unlikely entrepreneurs, *From Head Shops to Whole Foods* writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered. The book challenges the widespread but mistaken idea that activism and

political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today s companies have adopted the language but not often the mission of liberation and social change
