Spying on Students Gregg L. Michel,2024-09-04 Gregg L Michel s Spying on Students focuses on the law enforcement campaign against New Left and progressive student activists in the South during the 1960s Often overlooked by scholars white southern students worked alongside their Black peers in the civil rights struggle drove opposition to the Vietnam War and embraced the counterculture s rejection of conventions and norms While African Americans bore the brunt of police surveillance and harassment federal agencies such as the FBI and local police intelligence units known as Red Squads subjected white student activists to wide ranging intrusive and illegal monitoring By examining the experiences of white students in the South Michel provides fresh insights into the destructive weaponized spying tactics

deployed by state actors in their attempts to quash dissent in the region Drawing on previously secret FBI files and records of other investigative agencies Michel demonstrates that authorities at all levels of government turned the full power of their offices against white activists listening to their conversations infiltrating their meetings and sowing discord within their families and schools Efforts to surveil and repress social activism reflected officials fear of growing unrest on the part of white students who questioned the southern racial status quo and recoiled as the horrors of Vietnam laid bare the shibboleth of American exceptionalism As white students revolted on campuses elsewhere most notably at Berkeley and Columbia law enforcement sought to curtail such disruptions in the South In their view white students threatened domestic tranquility and therefore warranted close monitoring *Spying on Students* presents a unique perspective on state actors war on dissent exposing their suspicion of opposing political beliefs and revealing their paranoia as they sought to preserve the existing racial order The work complicates further the dominant narrative of the era that casts white southern students as opponents of social change The counterintelligence operations employed against them show not only that white students valued political engagement and social activism but also that authorities considered them a menace to the country as a whole

Geiger, 2000 Counter Roger L Geiger s collection of essays and interpretive introduction shows the growth of colleges in America over the nineteenth century from eighteen schools at the beginning of the century to 450 Universities by the end which transformed the life of the nation
