Usda Family Farm Report

Robert A. Hoppe

Usda Family Farm Report:

Structure and Finances of U.S. Farms Robert A. Hoppe, 2010 Most U S farms 98 percent in 2007 are family operations and even the largest farms are predominantly family run Large scale family farms and non family farms account for 12 percent of U S farms but 84 percent of the value of production In contrast small family farms make up most of the U S farm count but produce a modest share of farm output Small farms are less profitable than large scale farms and their operator households tend to rely on off farm income for their livelihood Farm operator households cannot be characterized as low income when both farm and off farm income are considered Nevertheless limited resource farms still exist and account for 3 to 12 percent of family farms depending on how limited resource is defined Graphs **Hearings, Reports and Prints of the Senate Committee on Post Office and Civil Service** United States. Congress. Senate. Committee on Post Office and Civil Service, 1974 *Agricultural Economic Report* Ron Durst, 2001 **Structure and Finances of U.S. Farms**, 2005

Class, Gender, and the American Family Farm in the 20th Century Elizabeth Ramey, 2014-04-24 Integrating a focus on gender with Marx s surplus based notion of class this book offers a one of a kind analysis of family farms in the United States The analysis shows how gender and class struggles developed during important moments in the history of these family farms shaped the trajectory of U S agricultural development It also generates surprising insights about the family farm we thought we knew as well as the food and agricultural system today Elizabeth A Ramey theorizes the family farm as a complex hybrid of mostly feudal and ancient class structures This class based definition of the family farm yields unique insights into three broad aspects of U S agricultural history First the analysis highlights the crucial yet under recognized role of farm women and children s unpaid labor in subsidizing the family farm Second it allows for a new class based perspective on the roots of the twentieth century miracle of productivity in U S agriculture and finally the book demonstrates how the unique set of contradictions and circumstances facing family farmers during the early twentieth century including class exploitation was connected to concern for their ability to serve the needs of U S industrial capitalist development The argument presented here highlights the significant costs associated with the intensification of exploitation in the transition to industrial agriculture in the U S When viewed through the lens of class the hallowed family farm becomes an example of one of the most exploitative institutions in the U S economy This book is suitable for students who study economic history agricultural studies and labor economics *Economic Report of the People* Center for Popular Economics (U.S.), 1986 An alternative to the Economic Report of the US President that explains how we can achieve growth and democracy why IMF policies make the Third World debt problem worse and how economic policies of the new right hurt blacks and women **Publicly Funded Agricultural Research and the Changing Structure of U.S. Agriculture** National Research Council, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Committee to Review the Role of Publicly Funded Agricultural Research on the Structure of U.S. Agriculture, 2002-04-18 The U S Department of Agriculture USDA requested

that the Board on Agriculture and Natural Resources of the National Research Council NRC convene a panel of experts to examine whether publicly funded agricultural research has influenced the structure of U S agriculture and if so how The Committee to Review the Role of Publicly Funded Agricultural Research on the Structure of U S Agriculture was asked to assess the role of public sector agricultural research on changes in the size and numbers of farms with particular emphasis on the evolution of very large scale operations
