

## The Summary Essay

The key features of this type of writing are that (1) it is shorter than the source; and that (2) it repeats the ideas of the source in different phrases and sentences.

Obviously, you cannot write a good summary essay of a source that you do not understand. One such technique is the reader's summary, which you write for yourself, as a way of understanding the text you are reading. But there is another type of summary, the **summary essay**, which is written for an audience other than yourself. The purpose of the summary essay is to convey to others an understanding of a text you have read, without their having to read it themselves. Thus for your readers, your summary essay functions as a substitute for the source that you are summarizing. You do not want to misrepresent your source or mislead your audience. Certainly an important feature of the summary essay, then, is its fidelity to the source; you must represent your source accurately and comprehensively, with as little of your own interpretation as possible. (Anytime you read and repeat a source, of course, you are engaging in interpretation; but the summary essay asks you to minimize your interpretation as much as possible. You should not add your own examples and explanations, for instance.) An alternative purpose of the summary essay, one that is very commonplace in college, is a demonstration of comprehension: teachers sometimes assign summary essays when they want to make sure that students fully understand an assigned source. In this case, your essay does not substitute for the source, for the teacher has read the source, too. Yet your essay will be written in the same way, with fidelity to the source. The following format works well for a summary essay:

**a. The introduction** (usually one paragraph)--

1. Contains a one-sentence thesis statement that sums up the main point of the source. This thesis statement is not your main point; it is the main point of your source. Usually, though, you have to write this statement rather than quote it from the source text. It is a one-sentence summary of the entire text that your essay summarizes.

2. Also introduces the text to be summarized:

(a) Gives the title of the source (using MLA or APA guidelines--p. 000);

(b) Provides the name of the author of the source;

(c) Sometimes also provides pertinent background information about the author of the source or about the text to be summarized.

The introduction should not offer your own opinions or evaluation of the text you are summarizing.

**b. The body** of a summary essay (one or more paragraphs) paraphrases and condenses the original piece. In your summary, be sure that you--

*Reconceiving Writing, Rethinking Writing Instruction* Joseph Petraglia, 2013-11-05 To a degree unknown in practically any other discipline the pedagogical space afforded composition is the institutional engine that makes possible all other theoretical and research efforts in the field of rhetoric and writing But composition has recently come under attack from many within the field as fundamentally misguided Some of these critics have been labelled New Abolitionists for their insistence that compulsory first year writing should be abandoned Not limiting itself to first year writing courses this book extends and modifies calls for abolition by taking a closer look at current theoretical and empirical understandings of what contributors call general writing skills instruction GWSI the curriculum which an overwhelming majority of writing instructors is paid to teach that practically every composition textbook is written to support and the instruction for which English departments are given resources to deliver The vulnerability of GWSI is hardly a secret among writing professionals and its intellectual fragility has been felt for years and manifested in several ways in persistently low status of composition as a study both within and outside of English departments in professional journal articles and conference presentations that are growing both in theoretical sophistication and irrelevance to the composition classroom and in the rhetoric and writing field's ever increasing attention to nontraditional sites of writing behavior But to date there has been relatively little concerted discussion within the writing field that focuses specifically on the fundamentally awkward relationship of writing theory and writing instruction This volume is the first to explicitly focus on the gap in the theory and practice that has emerged as a result of the field's growing professionalization The essays anthologized offer critiques of GWSI in light of the discipline's growing understanding of the contexts for writing and their rhetorical nature Writing from a wide range of cognitivist critical theoretical historical linguistic and philosophical perspectives contributors call into serious question basic tenets of contemporary writing instruction and provide a forum for articulating a sort of zeitgeist that seems to permeate many writing conferences but which has until recently not found a voice or a name **Cracking the Advanced Placement Spanish,**
