**Figurative Language, Genre and Register** Alice Deignan, Jeannette Littlemore, Elena Semino, 2013-03-07 This volume combines diverse research scenarios to present a solid framework for analysis of figurative language. Figurative Language, Genre and Register brings together discourse analysis and corpus linguistics in a cutting edge study of figurative language in spoken and written discourse. The authors explore a diverse range of communities from chronic pain sufferers to nursery staff to present a detailed framework for the analysis of figurative language. The reader is shown how figurative language is used between members of these communities to construct their own world view and how this can change with a shift in perspective. In a sense recognition of the theoretical importance of figurative language symbolized the transition from the psycholinguistics of the 1960s to that of the late 1970s that is from a linguistic semantics to a more comprehensive psychological semantics with a healthy respect for context, inference, world knowledge and above all creative imagination.
