*I Know Best* Roger L. Simon, 2016-06-14 In 1979 Christopher Lasch published the epochal *The Culture of Narcissism* warning of the normalizing of narcissism in our society Lasch may have understated it 35 years later in the Obama era with its parade of endless often inexplicable scandals we have a full blown epidemic of what has recently been called Moral Narcissism Forget Narcissus and his reflection Moral Narcissism the almost schizophrenic divide between intentions and results now pervading our culture is the new method for feeling good about yourself It no longer matters how anything turns out as long as your intentions were good that you were moral And just as importantly the only determinant of those intentions the only one who defines that morality is you *I Know Best* goes beyond Lasch to lay bare how this moral narcissism is behind all those scandals from Obamacare to the Veterans Administration to the IRS Benghazi Bergdahl Syria and beyond Everything the Obama administration did and does was about making them feel good about themselves the results be damned And they have as their allies those supreme moral narcissists in the academy media and Hollywood ever willing to ratify those good intentions and ignore those same results But *I Know Best* is not just about the Left Moral Narcissism affects the right as well even when they don't realize it It is a true epidemic that must be cured in order to save our democratic republic and our futures

**Fascism in America** Gavriel D. Rosenfeld, Janet Ward, 2023-09-14 Has fascism arrived in America In this pioneering book Gavriel D Rosenfeld and Janet Ward have gathered experts to survey the history of fascism in the United States Although the US established a staunch anti fascist reputation by defeating the Axis powers in World War II the unsettling truth is that fascist ideas have long been present within American society Since the election of Donald Trump as President in 2016 scholars have debated whether Trumpism should be seen as an outgrowth of American conservatism or of a darker and potentially fascist tradition *Fascism in America* contributes to this debate by examining the activities of interwar right wing groups like the Silver Shirts the KKK and the America First movement as well as the post war rise of Black antifascism and white vigilantism the representation of American Nazis in popular culture and policy options for combating right wing extremism

Rating America's Presidents Robert Spencer,2020-08-25 Most historians of the American presidency walking in lockstep with today s hard Left academic establishment favor presidents who were big government statist and globalists They dislike presidents who lowered taxes protected American workers and avoided getting the United States

entangled in foreign conflicts that had nothing to do with protecting the American people It is through that prism that they see all of American history It s time for a change Nowadays with socialism massively discredited and internationalism facing more opposition than it has since before World War II it s time to reevaluate what the Leftist historians have told us Donald Trump was elected president pledging to put America First as any nation s leader should put his or her own people first There needs to be an America First reevaluation of him and his predecessors This book therefore rates the presidents not on the basis of criteria developed by socialist internationalist historians but on their fidelity to the United States Constitution and to the powers and limits to those powers of the president as delineated by the Founding Fathers America s presidents are rated on the extent to which they put America First not in the sense of a narrow isolationism but whether they really advanced the interests of the American people This upends the conventional wisdom about a great deal of American history and present day reality and is intended to do so This book offers what should be the only criteria for rating the occupants of the White House were they good for America

discriminations in housing healthcare education and every facet of their lives Recent cases involving law enforcement officers shooting unarmed Black men also attest to the reality the problem of the twenty first century is still the problem of the color line In *Race Still Matters* contributors drawn from a wide array of disciplines use multidisciplinary methods to explore topics such as Black family experiences hate crimes race and popular culture residual discrimination economic and occupational opportunity gaps healthcare disparities education law enforcement issues youth culture and the depiction of Black female athletes The volume offers irrefutable evidence that race still very much matters in the United States today
