What Is The Similarities Of Nfsas:

Perspectives on Student Affairs in South Africa McGlory Speckman, Martin Mandew, 2014-07-17 The goal of *Perspectives on Student Affairs in South Africa* is to generate interest in student affairs in South Africa. The papers contained herein are based on best practice local experience and well researched international and local theories. The papers in this book deal with matters pertaining to international and national trends in student affairs, academic development, access and retention, counselling and material support for students coming from disadvantaged backgrounds. They are linked to national and international developments as described in the first two papers. This publication will assist both young and experienced practitioners as they grow into their task of developing the students entrusted to them. All contributors are South Africans with a great deal of experience in student affairs and all are committed to the advancement of student affairs in South Africa. The editors are former heads of student affairs portfolios at two leading South African universities. **Breaking a Rainbow, Building a Nation** Rekgotsofetse Chikane, 2018-10-01 *Breaking a Rainbow Building a Nation* is a first hand account of the university protests that gripped South Africa between 2015 and 2017, widely better known as the FeesMustFall. Chikane outlines the nature of student politics in the country before, during and after the emergence of MustFall politics, exploring the political dynamics that informed and drove the student protests and the effect that these MustFall movements have had on the nature of youth politics in the country. Chikane looks at how the current nature of youth politics is different from previous youth upheavals that have defined South Africa, specifically due to the fact that the protests were being led by so called coconuts who are part of the black elite. *Breaking a Rainbow Building a Nation* poses the provocative question: can coconuts be trusted with the revolution? *The Next Twenty-five Years* David Lee Featherman, Marvin Krislov, Martin Hall, 2009-12-18 A must read for anyone who cares about the future of higher education in diverse democracies. **Electronic Government and the Information Systems Perspective** Andrea Kö, Enrico Francesconi, Adeleh Asemi, Gabriele Kotsis, A Min Tjoa, Ismail Khalil, 2023-07-28 This book constitutes the proceedings of the 12th International Conference on Electronic Government and the Information Systems Perspective, EGOVIS 2023, which took place in Penang, Malaysia, during August 28-30, 2023. The 8 full papers presented together with 1 short paper were carefully reviewed and selected from a total of 17 submissions. They were organized in topical sections as follows: e-Government strategy, artificial intelligence. **Student Activism in the Global South** Kurauone Masungu, 2024-09-01 This book makes an original conceptual and empirical contribution to debates on the role of student activism in enhancing social justice within education in the Global South, using South Africa as a case study. The book explores the development of higher education students' political capabilities through student activism, that is, the freedom to express political ideas and engage in protests, including the following key capabilities: participation, dialogue, practical reasoning, voice, emotional expression, contextual knowledge, and physical wellbeing. The author considers the possibility of enhancing justice and democracy in higher education through the formation of such student freedoms. The book

will be of interest to academics and researchers in student activism higher education and social justice as well as institutional staff members with knowledge of student governance members of student representative councils and higher education administrators

Achieving Nelson Mandela University? Sibongile Muthwa, Denver A. Webb, 2024-08-20 South Africa s higher education sector is rooted in the country s divided past A significant State driven restructuring from around 1997 to 2005 resulted in what is largely the current configuration of public universities But just over two decades later for a variety of reasons the higher education sector in South Africa appears beset with numerous challenges Nelson

Mandela University is one of the public universities that emerged from the restructuring process. The university is in an ongoing state of evolution of becoming. It developed out of the amalgamation of the University of Port Elizabeth, Port Elizabeth Technikon and incorporation of the Port Elizabeth campus of Vista University as Nelson Mandela Metropolitan University in 2005. In 2017 it was renamed Nelson Mandela University after the world renowned statesman rather than the metropolitan area in which the university is primarily located. The renaming was conceptualised as more than a marketing opportunity to rebrand the university but as an opportunity to reorientate the university to reposition Nelson Mandela University as an engaged and socially embedded university in the service of society striving to be the academic expression of the values and ethos of its iconic namesake. Endeavouring to be something greater and different from the norm imbues its strategy, public statements and practices. The determination to achieve, Mandela University serves or is intended to serve as both an organising principle and a lodestar. A cross section of writers from different backgrounds situates Nelson Mandela University within the contemporary historical moment from which it emerged and examines its subsequent evolution. While Nelson Mandela University has performed the usual work expected of any university it has also sought to turn the university outwards to achieve a higher purpose, framing itself as a values based university on a journey to become something else. In *Achieving Nelson Mandela University* the university attempts to give an account of itself. The book is an intellectual and scholarly reflection on where the university has come from and where it is seeking to go.

QUALITY OF LIFE SURVEY V (2017/18) THE QUALITY OF LIFE OF STUDENTS IN GAUTENG Christian Hamann, Kate Joseph, 2020-07-29 GCRO Data Brief on quality of life of students

One World, Many Knowledges Halvorsen, Tar, Vale, Peter, 2016-05-12 Various forms of academic co operation criss cross the modern university system in a bewildering number of ways from the open exchange of ideas and knowledge to the sharing of research results and frank discussions about research challenges. Embedded in these scholarly networks is the question of whether a global template for the management of both higher education and national research organisations is necessary and if so must institutions slavishly follow the high flown language of the global knowledge society or risk falling behind in the ubiquitous university ranking system. Or are there alternatives that can achieve a better more ethically inclined world. Basing their observations on their own experiences an interesting mix of seasoned scholars and new voices from southern Africa and the Nordic region offer critical perspectives on issues of inter and cross regional academic co operation. Several of the chapters also touch on the evolution of the higher education sector in the two regions. An absorbing and intelligent study this book will be invaluable for anyone interested in the strategies scholars are using to adapt to the interconnectedness of the modern world. It offers fresh insights into how academics are attempting to protect the spaces in which they can freely and openly debate the challenges they face while aiming to transform higher education and foster scholarly collaboration. The Southern African Nordic Centre SANORD is a partnership of higher education institutions from Denmark, Finland, Iceland, Norway, Sweden, Botswana, Namibia, Malawi, South Africa.

Zambia and Zimbabwe SANORD's primary aim is to promote multilateral research co-operation on matters of importance to the development of both regions. Our activities are based on the values of democracy, equity and mutually beneficial academic engagement.

University Access and Success Merridy Wilson-Strydom, 2015-02-11 The challenge of widening access and participation in higher education in a manner that ensures students are successful in their studies is a major issue globally and a significant research focus within higher education studies and higher education policy. Similarly, the challenge of underpreparedness of students entering higher education has become increasingly pertinent as universities in both developed and developing countries struggle to improve their throughput rates in a context in which schooling no longer seems to provide sufficient preparation for entering university. In this book, Merridy Wilson Strydom applies the capabilities approach to better understand university access and participation and draws on a rich case study from South Africa to critically and innovatively explore the complex and contradictory terrain of access with success. The book integrates quantitative and qualitative research with theory and practical application to provide a new framework for considering and improving the transition from school to university. *University Access and Success* will appeal to academics and researchers in the field of higher education internationally. The book also contributes to the growing body of international and comparative scholarship on the capabilities approach in higher education and will therefore be of value to higher education practitioners such as those working in the promotion of teaching and learning, higher education quality assurance, institutional research and student affairs.

Male Infertility Sergio Oehninger, Thinus Kruger, 2007-01-23 Male factor infertility is a common problem in reproductive medicine and can have a significant effect on the outcome of IVF treatment. This comprehensive book covers the diagnosis and treatment of male factor infertility in depth. It opens with a section on the basic science underlying the production of male gametes. There is then a major section.

Government Managing Risk Bruce Chapman, 2006-09-27 Higher education rates are increasing throughout the Western world yet at the same time government budgets face increasing constraints. This has ensured that the importance of student support is recognized in many countries. In recent years, there has been a world-wide movement towards the use of income-contingent loans (ICL) for higher education. ICLs are now used in six countries following the Australian innovation of 1989, with the governments of many more countries looking very seriously at the model. This impressive new book by Bruce Chapman analyzes ICLs, particularly their use in supporting students, exploring the experiences of a number of other countries adopting them. Chapman presents analysis of a number of disparate case studies to illustrate how ICLs can aid risk management policy reforming in both progressive and administratively feasible ways. This book describes, examines and promotes an exciting new role for the public sector as a manager of risk and argues that ICLs have enormous potential to change the extent and nature of social and economic activities. With the author's experience in the design and implementation of the Australian student financial support schemes, this is a knowledgeable, informative and enlightening book that will be useful to researchers, students and policy makers alike.
