Kenton, 2019-12-10 This book is unusual in a number of ways It is supposedly a text book but it will probably never be used as one in any major educational school system The book was also intended as a guide for determining one's reality which effects moral behavior Yet no hard and fast rules are ever mentioned but one What this book does do is to question everything that we accept in this physical reality as tangible and says that it is first intangible Can the average person accept that responsibility **WHO AM I?** Tony, 2013-06 This book was written during some of the most intense compounding and suffering moments that I experienced What is meant literally to be head pounding and raging emotional cycles of extreme bliss to chaos and back This book is a creation through me of that nature and the strength for which is preserved within it It is a story of survival knowledge and wisdom An expression of the catacomb of life force that is also the representation of us all not as a tomb but as a vault of knowledge experiences and wisdom built on the ages of human existence from the beginning to the end I want you all to know that in the end I found gratitude for the experience even though the vortex was the most horrifying place to go Many have suffered its fate to a dismal ending of suicide yet I am a survivor one who has converted its negative energies to the positive force This force that is passed from one to another looking to focus in had found itself challenged by my own wit desires and struggles to find the truth The knowledge of its existence and the beholder of its cycle should be known by all of us so that it can be nourished for the good of humanity not the control of them The Satanist views of the days past have been inverted for the enlightenment has taken hold and will endure for the future existence of humanity My experience was like the Manchurian candidate 7 billion fold God bless him who has the strength to withstand this vortex in the next cycle God bless you all
