**The Weeping Love** F. Shelton Gonkerwon, 2015-08-13 *The Weeping Love: A New Creation After the Storm* entails a stimulating romance account that depicts some sad events that often plague love, regime, and provoke unconscious disintegration in marital union. The book attempts to present love as an original instrument whose power works spiritually based on nature over which the human mind, heart, and soul have no absolute control. It essentially argues that the natural price for love is love and not luxuries and other influential elements including money and power, as is considered by many persons as a precondition for sustainable marital union. The book equates love to truth that is never susceptible to falsehood. It presents the fact that love, like the sky which is often defaced by dark clouds, has its unavoidable share of temptation, frustration, and other vices. It maintains that sustained love, like long-lasting peace, is the end result of social turbulence and conflict. Readers will realize that love that serves as a long-lasting foundation in marital life is not often earned on a silver platter. Like gold, it has its own processing fire, including temptation, disappointment, as well as frustration. Indeed, marriage tested by these factors often enjoys endurance and blessings. Contained potentially with literary exposition, the book is also annexed by captivating poems and some philosophical expressions that are useful for daily guidance.

**Goliath's Curse** Luke Kemp, 2025-09-23 *A NEXT BIG IDEA CLUB'S MUST READ BOOK* A radical retelling of human history through the cycle of societal collapse, a Cassandra-like warning about the path today's oligarchs have set, and a sweeping and dire vision of a world on the brink. Publishers Weekly starred review: Deeply sobering and strangely inspiring. Read it now or your descendants will find it in the ruins. Johann Hari, author of *Stolen Focus*: Anyone who doubts the importance of this conversation hasn't been paying attention. Bill McKibben, author of *Here Comes the Sun*: 12,000 years ago, human history changed forever when the egalitarian groups of hunter-gathering humans began to settle down and organize themselves into hierarchies. The few dominated the many, seizing control through violence. What emerged were Goliath's large societies built on a collection of hierarchies that are also terrifyingly fragile, collapsing time after time across the world. Today we live in a

single global Goliath one that is precariously interdependent under threat from nuclear war climate change and the existential risks of AI The next collapse may be our last In Goliath's Curse Cambridge scholar Luke Kemp conducts a historical autopsy on our species from the earliest cities to the collapse of modern states like Somalia Drawing on historical databases and the latest discoveries in archaeology and anthropology he uncovers groundbreaking revelations More democratic societies tend to be more resilient A modern collapse is likely to be global long lasting and more dire than ever before Collapse may be invisible until after it has occurred It's possible we're living through one now Collapse has often had a more positive outcome for the general population than for the 1% All Goliaths contain the seeds of their own demise As useful for finding a way forward as it is for diagnosing our precarious present Goliath's Curse is a stark reminder that there are both bright and dark sides to societal collapse that it is not necessarily a reversion to chaos or a dark age and that making a more resilient world may well mean making a more just one
