When Interview At Bara Hospital:

Baragwanath Hospital, Soweto Simonne Horwitz, 2013-09-01 Baragwanath Hospital Soweto illustrates how this rapidly growing underfunded but surprisingly effective institution found the niche that allowed it to exist to provide medical care to a massive patient body and at times even to flourish in the apartheid state The book offers new ways of exploring the history of apartheid apartheid medicine and health care The long history of Chris Hani Baragwanath Hospital its full current name or Bara as it is popularly known has been shaped by a complex set of conditions Established in the early 1940s Bara stands on land purchased by the Cornish immigrant John Albert Baragwanath in the late nineteenth century He set up a refreshment post trading store and hotel on the site in what is now Soweto which was a one day journey by ox wagon from Johannesburg The hotel became affectionately known as Baragwanath Place the surname is Welsh from bara meaning bread and gwenith meaning wheat The land was then bought by Corner House Mining Group and later taken over by Crown Mines Ltd but was never mined The British government bought the land in the early 1940s to build a military hospital but by 1947 Baragwanath ceased to operate as a military hospital and under the auspices of the Transvaal Provincial Administration a civilian hospital was opened with 480 beds Patients were transferred from the non European wing of the Johannesburg General Hospital in the white area of Johannesburg Links were immediately forged with the University of the Witwatersrand and Bara would over time become one of its largest teaching centres This link brought medical students and their teachers into direct contact with apartheid in the medical sphere This book will contribute to studies of the history of apartheid that have begun to provide a more nuanced account of its workings The history of Baragwanath and of the doctors and nurses who worked there tells us much about apartheid ideology and practice as well as resistance to it in the realm of health care **African nurses and**

everyday work in twentieth-century Zimbabwe Clement Masakure, 2020-12-15 Informed by the memories of African nurses this book highlights the experiences of men and women who provided nursing services in Zimbabwe's hospitals in the twentieth century It argues that in their subordinate positions and within their various capacities nursing assistants nursing orderlies medics and qualified nurses African women and men played a pivotal role in the provision of healthcare services to their fellow Africans They transformed hospital spaces into their own reshaped and reformulated indigenous as well as western nursing and biomedical practices Through their work African nurses contributed to the development of the nation by being at the bedside healing the sick and nursing the infirm **Contesting Transformation** Marcelle C. Dawson, Luke

Sinwell, 2014-04-10 **Contesting Transformation** is a sober and critical reflection on the wave of social movement struggles which have taken place in post Apartheid South Africa Moving beyond a social movement scholarship that has tended to romanticise emergent movements this collection takes stock of the contradiction and complexity that is necessarily entangled in all forms of popular resistance Through an exploration of labour strikes legal organisations community protest and local government elections the contributors consider how different movements conceive of transformation and assess the extent to

which these understandings challenge the narrative of the ruling African National Congress ANC An empirically grounded analysis from a coterie of leading researchers and analysts Contesting Transformation is the definitive critical survey of the state of popular struggle in South Africa today **From Nowhere to Somewhere** Dr. K P Mokhobo, 2013-03-19 I wrote a personal story motivated by the urge to chronicle what struck me as a unique and unusual developmental social and professional life I hope the story will interest the readers I certainly relished the nostalgia and recollections of the past from the humble beginnings and reaching the top with success in a manner from which the origins cannot be told or surmised The purpose is not to glorify poverty nor encourage social upbringing in an environment devoid of parental support but to indicate the inherent resilience of a human being It is possible to survive and succeed despite adverse circumstances if among other factors one gets lucky breaks or your journey enjoys fortunate events In my case success was certainly almost entirely the result of lucky strokes and unexplained events which came to the rescue at the right time and in the correct manner The morrow was miraculously shaped without concerted planning Assistance that came from various unsolicited quarters testified to inherent good nature of people In many a situation similar to mine the environment can be a fatal and destructive derailment One had to have the ability to learn quickly and to have the potential to avoid pitfalls *Ancestors and Antiretrovirals* Claire Laurier Decoteau, 2024-05-31 In the years since the end of apartheid South Africans have enjoyed a progressive constitution considerable access to social services for the poor and sick and a booming economy that has made their nation into one of the wealthiest on the continent At the same time South Africa experiences extremely unequal income distribution and its citizens suffer the highest prevalence of HIV in the world As Archbishop Desmond Tutu has noted AIDS is South Africa's new apartheid In *Ancestors and Antiretrovirals* Claire Laurier Decoteau backs up Tutu's assertion with powerful arguments about how this came to pass Decoteau traces the historical shifts in health policy after apartheid and describes their effects detailing in particular the changing relationship between biomedical and indigenous health care both at the national and the local level Decoteau tells this story from the perspective of those living with and dying from AIDS in Johannesburg's squatter camps At the same time she exposes the complex and often contradictory ways that the South African government has failed to balance the demands of neoliberal capital with the considerable health needs of its population *Winnie and Nelson* Jonny Steinberg, 2025-06-10 A NATIONAL BOOK CRITICS CIRCLE AWARD WINNER THE SUNDAY TIMES LITERARY AWARD WINNER AN LA TIMES BOOK PRIZE FINALIST A WASHINGTON POST AND NEW YORKER 2023 BEST BOOK OF THE YEAR A deeply researched shattering new account of Nelson Mandela's relationship with Winnie Madikizela Mandela that does justice both to the couple's political heroism and to the betrayals and the secrets that hounded their union The New Yorker Drawing on never before seen material Steinberg one of South Africa's foremost nonfiction writers reveals the fractures and stubborn bonds at the heart of a volatile and groundbreaking union a very modern political marriage that played out on the world stage Powerful intimate The Washington Post One of the most

celebrated political leaders of a century Nelson Mandela has been written about by many But in one crucial area his life remains largely untold his marriage to Winnie Madikizela Mandela During his years in prison Nelson grew ever more in love with an idealized version of his wife courting her in his letters as if they were young lovers frozen in time But Winnie every bit his political equal found herself increasingly estranged from her jailed husband s politics Behind his back she was trying to orchestrate an armed seizure of power a path he feared would lead to endless civil war Jonny Steinberg tells the tale of this unique marriage its longings its obsessions its deceptions making South African history a page turning political biography Winnie and Nelson is a modern epic in which trauma doesn t affect just the couple at its center but an entire nation It is also a Shakespearean drama in which bonds of love and commitment mingle with timeless questions of revolution such as whether to seek retribution or a negotiated peace Steinberg reveals with power and tender emotional insight how far these forever entwined leaders would go for each other and where they drew the line For in the end both knew theirs was not simply a marriage but a contest to decide how apartheid should be fought

Liberation and Development Leslie Anne Hadfield, 2016-05-01 Liberation and Development Black Consciousness Community Programs in South Africa is an account of the community development programs of the Black Consciousness movement in South Africa It covers the emergence of the movement s ideas and practices in the context of the late 1960s and early 1970s then analyzes how activists refined their practices mobilized resources and influenced people through their work The book examines this history primarily through the Black Community Programs organization and its three major projects the yearbook Black Review the Zanempilo Community Health Center and the Njwaxa leatherwork factory As opposed to better known studies of antipolitical macroeconomic initiatives this book shows that people from the so called global South led development in innovative ways that promised to increase social and political participation It particularly explores the power that youth women and churches had in leading change in a hostile political environment With this new perspective on a major liberation movement Hadfield not only causes us to rethink aspects of African history but also offers lessons from the past for African societies still dealing with developmental challenges similar to those faced during apartheid

Postcolonial Sociology Julian Go, 2013-02-27

Postcolonial Sociology Popular Politics and Resistance Movements in South Africa William Beinart, Marcelle C. Dawson, 2010-12-01 An examination of post apartheid politics This volume explores some of the key features of popular politics and resistance before and after 1994 It looks at continuities and changes in the forms of struggle and ideologies involved as well as the significance of post apartheid grassroots politics Is this a new form of politics or does it stand as a direct descendent of the insurrectionary impulses of the late apartheid era Posing questions about continuity and change before and after 1994 raises key issues concerning the nature of power and poverty in the country Contributors suggest that expressions of popular politics are deeply set within South African political culture and still have the capacity to influence political outcomes The introduction by William Beinart links the papers together places them in context of recent literature

on popular politics and history from below and summarises their main findings supporting the argument that popular politics outside of the party system remain significant in South Africa and help influence national politics The roots of this collection lie in post graduate student research conducted at the University of Oxford in the early twenty first century **South African AIDS Activism and Global Health Politics** M. Medical Outcasts Roxane Richter,2015-12-24 As witnessed through the firsthand experiences of a frontline activist and international medical aid practitioner this biosocial political study gives voice to the inequities in undocumented Mexican and Zimbabwean women s emergency healthcare access and treatment in Houston United States of America and Johannesburg South Africa As a construct of feminist transdisciplinary fieldwork this research utilizes methodological pluralism and biosocial disparities to examine constructs of social determinants or social origins of women s suffering disease and healthcare access These variables include gender inequity xenophobia structural violence political economy subjugation healthcare access and delivery disparities and human rights violations Illustrated through 24 purposive interviews this seven year study shows Zimbabwean women sought out emergency care at a rate 16 times higher than their Mexican counterparts but reported lower instances of domestic violence and depression Most notably the Zimbabwean women reported communicable diseases at double the rate of the interviewed Latinas However the most surprising finding of the study was

the high number of Mexican women some 60% who cited depression as one of their indications for seeking emergency healthcare The study indicated that the reality of many forced migrants experiences in claiming their accorded healthcare rights was more theoretical than practical in its distribution and disposition Particularly sovereign freedom and civil justice were not being conferred to these women according to the two host country s mandated Constitutional precepts and or emergency medical aid mandates and social gender aid and human rights justice directives Thus the role of government in shaping these systemic and institutionalized ideologies will be examined as well as paradigms that effect national healthcare expenditures subsidies and public health risks The intention of this study is not to provide definitive recommendations of specific forced migration policies that have a civic and or partisan duty to be executed but rather to serve as an illustration of how these social tenets inequitable power relations and political economy subjugation directly impact socioeconomically disadvantaged women s health livelihood and human rights
