Silently Seduced Kenneth M. Adams, 2011-09-01 When a parent singles out a child for special privileges and attention that child is often unaware that the relationship is unhealthy even incestuous As adults these children struggle to feel validated because while they have not been directly abused they feel a sense of violation and crossed boundaries usually done in the name of love and caring The parent's love feels more confining than freeing more demanding than giving more intrusive than nurturing Yet these children suffer from what psychologist Kenneth Adams calls The Silent Seduction because there is nothing loving or caring about a close parent child relationship that services the needs of the parent rather than the child In this revised and updated 20th anniversary edition of his groundbreaking book Silently Seduced Dr Adams explains how feeling close especially with the opposite sex parent is not the source of comfort the image suggests especially when that child is cheated out of a childhood by being a parent's surrogate partner He offers a framework to understand this covert incest and its effect on sexuality intimacy and relationships and how victims can begin the process of recovery

Honour Based Crimes and the Law Mukaddes Gorar, 2021-05-10 Honour based violence and abuse manifests itself in different forms and this book offers a comprehensive understanding of this phenomenon This book argues that the limits of honour crimes must be defined more widely so that they include conducts and behaviours that originate from the patriarchal notion of honour such as honour based oppression and breast ironing The book provides a critical analysis and synthesis of the law in England and Wales and in the international human rights sphere The relevant domestic legislation and cases are examined to reflect on whether adequate protection is provided for the victims and potential victims of honour based violence and abuse Since honour based violence is a violation of human rights the relevant international human rights law is examined to illustrate the perception of such crimes in the international arena The effectiveness of any remedy for victims of honour based violence and abuse depends on its capability to change deep rooted behaviours in communities with honour based patriarchal values This book argues that the law does not provide the effective impact required in part due to patriarchal structures and that more efforts should be dedicated to changes in education It is held that there is a need for an educational programme that is especially designed to tackle violence and promote gender equality The book will be essential reading for academics researchers and policy makers working in the areas of Human Rights Law Criminal Law and Gender Studies
