*The Merging of Two Worlds* Roy E. Bourque, 2011-09-27 Science is a left brained subject It sees the world in mathematical models It is all built on logic Religion is a right brained subject It sees the world in associations It is all built on symbolism Misconceptions are what prevent us from reconciling the associations with the mathematical models Once the misconceptions are revealed the problem goes away The teachings of Eastern Philosophy are interwoven throughout the Old and New Testaments What they have to say explains a great deal about what the Holy Bible is trying to say to us It reveals much of the symbolism used in religion so that it can be understood It takes you beyond the realm of faith and into the realm of knowing The Mayan Calendar and its apparent connection to end time prophecy is also reviewed The evolution of consciousness that it reveals is leading us on a very definite path Taken collectively evolution split brain Eastern Philosophy Christianity and the Mayan Calendar are interwoven to present a worldview that is equally fascinating and very promising

*Anthropomorphism in Christian Theology* William C. Hackett,2023-12-28 William C Hackett provides a renewed reading of Christian theology by evaluating the role of anthropomorphism in shaping negative theology Through this theological history he addresses the fear of anthropomorphism that prompted early philosophers and theologians to adopt abstract understandings of God Hackett charts the wide ranging importance of anthropomorphism to theology through figures including Balthasar Bultmann Dionysius the Areopagite and Cyril of Alexandria He argues that anthropomorphism highlights the unique conceptual problem between divine presence

and absence By exploring the turn away from practical and embodied views of God in Scripture this book focuses on anthropomorphic views of God in symbols images and narratives Emphasising these forms promotes an intellectual vision of Christianity that challenges theoretical and conceptual abstraction Anthropomorphism in Christian Theology further traces the nuances between human and angelic intellect modern philosophy and theology negative theology and the concept of transcendence     Reading Jonathan Edwards M.X. Courey,2015-02-26 Global Pentecostalism is a twenty first century phenomenon Yet in North America where the movement was born it has stalled Courey uncovers the cause of this plateau in the triumphalism that is characteristic of both North American Protestantism and Pentecostalism Through the identification of parallels between Martin Luther and contemporary Pentecostals Courey detects in Luther s Theology of the Cross a potent remedy for this tension Utilising this insight Courey reflects on other faith traditions and provides a counterpoint to the triumphalism that inhibits the development of Pentecostalism in North America and around the world This work comprises of three parts The first is historical charting the antecedents and development of Pentecostal triumphalism The second is an experiment in historical theology seeking basic resonances between Luther and early Pentecostals and examining the Theology of the Cross as a means of probing Pentecostalism The final section is an effort in constructive theology applying the theologia crucis to some of the central aspects of Pentecostalism     *The Christian Life* ,1882     **Asfuriyyeh** Joelle M Abi-Rached,2020-11-17 The development of psychiatry in the Middle East viewed through the history of one of the first modern mental hospitals in the region A f riyyeh formally the Lebanon Hospital for the Insane was founded by a Swiss Quaker missionary in 1896 one of the first modern psychiatric hospitals in the Middle East It closed its doors in 1982 a victim of Lebanon s brutal fifteen year civil war In this book Joelle Abi Rached uses the rise and fall of A f riyyeh as a lens through which to examine the development of modern psychiatric theory and practice in the region as well as the sociopolitical history of modern Lebanon     **Eschatology and Hope** Anthony Kelly ,2006     **Radical Martyrdom and Cosmic Conflict in Early Christianity** Paul Middleton,2006-06-30

Several views of martyrdom co-existed in the early Church. The orthodox position generally accepted by scholars was that a Christian should choose martyrdom rather than deny the Faith but should not on any account court death. Although it has been recognised that some in the early Church did seek a glorified death by giving themselves over to arrest, most scholars have dismissed such acts as differing from the accepted attitude to martyrdom in the early Church. Therefore instances of volitional or radical martyrdom have been largely overlooked or sidelined in scholarly investigations into the theology and origins of Christian martyrdom. Paul Middleton argues that far from being a deviant strand of early Christianity, radical martyrdom was a significant and widely held idealised form of devotion in the late first to early third centuries. Christian martyrdom is placed within the heritage of Jewish War tradition with each martyr making an important contribution to the cosmic conflict between Satan and God. Radical Martyrdom re-examines the presentation, theology and origins of Christian martyrdom up to the beginning of the Decian persecutions in the light of new perspectives on the subject.

**Confessions of a Jewish Priest** Gabriel Weinreich, 2010-02-01. The Confessions of a Jewish Priest are the reminiscences of Gabriel Weinreich, a secular Jew who was born in Poland and moved to the U.S. as a young adolescent during World War II, thus narrowly escaping the Holocaust. The book follows Weinreich as he becomes an American, twice husband, father, and an award-winning scientist, and shows how his subsequent journey toward Christianity and ordination to the Episcopal priesthood do nothing to impair his sense of Jewishness. In addition to telling a compelling life story of a boy from an eminent Jewish family, the book takes us on a journey into Christianity as perceived by a Jew who began as a complete atheist but realizes later in life that he never really was an atheist after all.

**The Names of God** Herbert Chanan Brichto, 1998. In this book Brichto argues for the aesthetic and ideological wholeness of the Hebrew Bible. He uses the methods of contemporary literary criticism to examine one of the greatest inconsistencies within the Book of Genesis: the alternating use of Yahweh, the Lord, and Elohim, God, as names for the Deity. Often cited as the proof of multiple authorship, Brichto shows instead that this inconsistency serves as a device for a single author using the specific name that is appropriate to each specific story. Brichto then proceeds to overturn other multiple author proofs, including variations in genealogies, eponyms, and chronologies. He shows that their variety, ingenuity, and imaginative whimsy serve a vital poetic function in the structure of the text as a whole. Finding a unity in this diversity of genres, styles, and devices, Brichto solidifies his thesis of single authorship.

**The Return of Pahana** Robert Boissiere, 1990. In this book the author explores the myth of a supernatural archetype who returns to help humanity and restore harmony to Earth in times of crisis. Focusing on the Hopi Indians of Arizona who believe that Pahana's return is imminent, he also traces the idea of the return in Mayan, Sumerian, Egyptian, and Christian myths and teachings.

**The Trinitarian Wisdom of God: Louis Bouyer's Theology of the God-World Relationship** Keith Lemna, 2022-12-16. Christian theology in recent decades has seen an explosion in the number of books published seeking a renewal of Trinitarian ontology. There has also been a proliferation of studies dedicated to the theology of Wisdom. Few, if any, of these books on the

Trinity or on Wisdom have drawn for inspiration on the comprehensive vision of French Oratorian priest Louis Bouyer 1913-2004 one of the greatest theologians of the modern age Bouyer produced a comprehensive work of theology that integrated these two seminal concerns based on a vast re sourcing of the Christian tradition Dr Keith Lemna explores Bouyer's achievement in depth showing that at the heart of his venture was a deep contemplative penetration into God's mediation to the world his creation sustenance and redemption of creation in the Wisdom of the Eternal Son Bouyer is a decisive resource for theologians wanting to develop the Christian understanding of the Trinity and creation based on tradition but in dialogue with modern cosmological thought The Trinitarian Wisdom of God Louis Bouyer's Theology of the God World Relationship gets to the heart of Louis Bouyer's theology of the God World relationship more deeply than any other has done before In doing so Lemna recovers a great theologian at his best      *Doctor Strange and Philosophy* Mark D.
