Modernism and the Spiritual in Russian Art Louise Hardiman, Nicola Kozicharow, 2017-11-13 In 1911 Vasily Kandinsky published the first edition of *On the Spiritual in Art* a landmark modernist treatise in which he sought to reframe the meaning of art and the true role of the artist For many artists of late Imperial Russia a culture deeply influenced by the regime s adoption of Byzantine Orthodoxy centuries before questions of religion

and spirituality were of paramount importance As artists and the wider art community experimented with new ideas and interpretations at the dawn of the twentieth century their relationship with the spiritual broadly defined was inextricably linked to their roles as pioneers of modernism This diverse collection of essays introduces new and stimulating approaches to the ongoing debate as to how Russian artistic modernism engaged with questions of spirituality in the late nineteenth to mid twentieth centuries Ten chapters from emerging and established voices offer new perspectives on Kandinsky and other familiar names such as Kazimir Malevich Mikhail Larionov and Natalia Goncharova and introduce less well known figures such as the Georgian artists Ucha Japaridze and Lado Gudiashvili and the craftswoman and art promoter Aleksandra Pogosskaia Prefaced by a lively and informative introduction by Louise Hardiman and Nicola Kozicharow that sets these perspectives in their historical and critical context *Modernism and the Spiritual in Russian Art New Perspectives* enriches our understanding of the modernist period and breaks new ground in its re examination of the role of religion and spirituality in the visual arts in late Imperial Russia Of interest to historians and enthusiasts of Russian art culture and religion and those of international modernism and the avant garde it offers innovative readings of a history only partially explored revealing uncharted corners and challenging long held assumptions **Russian Art in the New Millennium (Russian Edition)**

SERGEI. LUCIE-SMITH REVIKIN (EDWARD.), Edward Lucie-Smith, 2022-08 There is surprisingly little and certainly nothing comprehensive written about the contemporary Russian scene now What appear in the West are mostly reports about so called dissidents not about what is happening in this vast culture taken as a whole Too often these reports seem to be primarily inspired by a desire to demonstrate Western cultural and political superiority The aim of *Russian Art in the New Millennium* is not to support any one cause but to look at the situation as it now exists objectively and to give as wide and truthful a view as possible Russian art during the period under review the last two decades has been evolving rapidly and in many directions Hence there are sections on digital art landscape paintings graffiti religious art and others Furthermore in addition to the continuing influence of the traditional centres for art Moscow and St Petersburg a number of provincial Russian cities have developed distinctive art worlds of their own *Russian Art in the New Millennium* attempts to discover this terra incognita and to encompass this extremely various but also intensely national art scene in Russia in one volume

Reclaiming and Redefining American Exhibitions of Russian Art Roann Barris, 2023-08-23 This book examines the history of American exhibitions of Russian art in the twentieth century in the context of the Cold War Because this history reflects changes in museological theory and the role of governments in facilitating or preventing intercultural cooperation it uncovers a story that is far more complex than a chronological listing of exhibition names and art works Roann Barris considers questions of stylistic appropriations and influences and the role of museum exhibitions in promoting international and artistic exchanges Barris reveals that Soviet and American exchanges in the world of art were extensive and persistent despite political disagreements before during and after the Cold War It also reveals that these early exhibitions communicated

contradictory and historically invalid pictures of the Russian or Soviet avant garde The book will be of interest to scholars working in art history museum studies and Russian studies **Proceedings** Anglo-Russian Literary Society,1904

intellectual spheres Most of the artists covered in Volume 5 2015 are far from straightforward cases but exactly because of this they can offer genuinely new insights into a still largely under researched domain of twentieth century art and literature Guiding questions for these investigations are How did these women come into contact with Futurist ideas Was it first hand knowledge poems paintings manifestos etc or second hand knowledge usually newspaper reports or personal conversations with artists who had been in contact with Futurism How did the women respond to the positive or negative reports How did this show up in their uvre How did it influence their subsequent often non Futurist career

Kazimir Malevich Rainer Crone, David Moos, 1991 Malevich's sudden and startling realization of a non objective way of painting which he termed Suprematism stands as a seminal moment in the history of twentieth century art Rainer Crone and David Moos trace the artist's development from his beginnings in the Ukraine and early years in Moscow where he was closely involved in the Futurist circle through to the late 1920s and beyond The authors of this book convincingly demonstrate that it is only through a close and sustained reading of Malevich's late and still widely misunderstood painterly oeuvre that his extraordinarily inventive stance can truly be comprehended Crone and Moos trace the close relationship between Malevich's practice and other contemporary non political revolutions in physics linguistics and poetry They present Malevich as a uniquely creative artist embodying in his work many of the insights and discoveries that define the twentieth century and the condition of modern life
