## Final e-Portfolio Essay

### What Grade Do I Deserve?

I believe that for my e-Portfolio I deserve at most a low-A or **high-B** because I put in some thought into it, though I could have put in more time and effort into it. I waited too long to even get started on my e-Portfolio and I regret it. After all, Ms. Ingram did tell us not to procrastinate till the last couple weeks to do our e-Portfolio. I must get all my major assignments to be finished and polished. I have attended all classes this semester and have completed all assignments except for one or two. All my blog posts are completed and follow all the requirements that were given. I have been active in all the group discussions as well. I feel like my writing that I have turned in (and haven't turned in) this semester has been my best writing yet and I think that is a direct result of the amount of time, effort, and thought that I have put into what I wrote this semester. I have been spending a great deal of time incorporating the **KEY CONCEPTS** of **critical reading**, **stretching out my comfort zone**, and **inquiry & making connections** into all of pieces of writing. I was looking at the e-Portfolio grading scale to know what to write for this essay, and it hit me suddenly that Ms. Ingram is laying out how to get an A, if you only follow the requirements, "That's pretty awesome!"

*Evaluating Teaching and Learning* David Kember, Paul Ginns, 2012-03-12 Every semester colleges and universities ask students to complete innumerable course and teaching evaluation questionnaires to evaluate the learning and teaching in courses they have taken For many universities it is a requirement that all courses be evaluated every semester The laudable rationale is that the feedback provided will enable instructors to improve their teaching and the curriculum thus enhancing the quality of student learning In spite of this there is little evidence that it does improve the quality of teaching and learning Ratings only improve if the instruments and the presentation of results are sufficiently diagnostic to identify potential improvements and there is effective counselling Evaluating Teaching and Learning explains how evaluation can be more effective in enhancing the quality of teaching and learning and introduces broader and more diverse forms of evaluation This guide explains how to develop questionnaires and protocols which are valid reliable and diagnostic It also contains proven instruments that have undergone appropriate testing procedures together with a substantial item bank The book looks at the specific national frameworks for the evaluation of teaching in use in the USA UK and Australia It caters for diverse methodologies both
