

The Memorare

Remember, O most gracious Virgin Mary,
that never was it known that anyone who
fled to thy protection, implored thy help, or
sought thine intercession was left unaided.
Inspired by this confidence, I fly unto thee,
O Virgin of virgins, my mother: to thee do I
come, before thee I stand, sinful and
sorrowful. O Mother of the Word
Incarnate, despise not my petitions, but in
thy mercy hear and answer me.
Amen.

Who's Buying Which Popular Short Fiction Now, & What Are They Paying? Anne Hart, 2007-09-20. Online booksellers are rapidly becoming online publishers. Sell your short fiction or nonfiction to the newest markets. Anyone who publishes your compiled short stories, novels, or nonfiction is looking for more opportunities to market your work. If you have published your stories or nonfiction with a mainstream or print-on-demand publisher that firm cooperates with online booksellers, they probably want to leverage serial rights opportunities with your short stories, articles, or nonfiction excerpts from your books. After publication, you need to drive people to online booksellers' Web sites and your own to create visibility. The revolution is in virtual book tours and online marketing with booksellers. Another hidden market is short story publishing rights auctions online to create visibility. You sell your writing as you'd sell a product at one of the online auctions. Long before finding any publisher or after the face-out shelf life of your book is over, sell or pre-sell your creations online. Offer short stories or articles to the public for a small fee to download. The music and movie industry do it. So can you. Online booksellers already are famous for a targeted community of readers that buy online. That's only one hint of hidden markets for authors that want to be well paid for short stories or brief nonfiction. Here's how to write, customize, and market precisely what these merchants want. Here's how to pose the least financial risk to them.

Applebee, 1928 *Rex and Regina; Or, The Song of the River. [With Plates.]* Emma Marshall, 1882 *Teaching What We Do* Richard Todd, Douglas C. Wilson, 1992-12-07 What goes on in a college classroom For all that has been written in recent years about higher education very little attention has been paid to the heart of the matter teaching This book by members of the Amherst College faculty helps to repair that oversight Amherst in defining itself places a large emphasis as it should on the life of the classroom No faculty member no matter how senior is excused from teaching no cadre of graduate students shoulders the load of introductory courses To teach is the central mission of an Amherst professor But seldom the only mission Almost everyone who teaches at Amherst also pursues research Maintaining the balance is sometimes frustrating but more often nourishing and exhilarating In his foreword Peter R Pouncey speaks of the way in which teaching and research cross fertilize each other He writes of the rejuvenating invitation of the classroom to confront the mild curiosity of the good natured young and see it rise in the face of your own interests and insistent first to eagerness and then to the sort of passion you remember and hope to sustain in yourself Again and again these essays by artist historian critic and scientist demonstrate that the pleasures and challenges of the classroom are inexhaustible And they provide us with glimpses of the true importance of the work that is done there As Professor Benjamin DeMott writes in a successful class the student is free to develop a thought to work up its implications to be unhurriedly serious about serious things in the company of attentive others At a time when the academy is under fire from various sides the reader will emerge from this book informed and heartened by its vision of the possibilities for higher education
