## What Is Music 1883:

*History of the Leeds musical festivals 1858-1889*, by F.R. Spark and J. Bennett Frederick Robert Spark, 1892 Music and Academia in Victorian Britain Rosemary Golding, 2016-04-29 Until the nineteenth century music occupied a marginal place in British universities Degrees were awarded by Oxford and Cambridge but students and often professors were not resident and there were few formal lectures It was not until a benefaction initiated the creation of a professorship of music at the University of Edinburgh in the early nineteenth century that the idea of music as a university discipline commanded serious consideration The debates that ensued considered not only music's identity as art and science but also the broader function of the university within education and society Rosemary Golding traces the responses of some of the key players in musical and academic culture to the problems surrounding the establishment of music as an academic discipline The focus is on four universities Edinburgh Oxford Cambridge and London The different institutional contexts and the approaches taken to music in each university showcase the various issues surrounding music's academic identity as well as wider problems of status and professionalism In examining the way music challenged conceptions of education and professional identity in the nineteenth century the book also sheds light on the way the academic study of music continues to challenge modern approaches to music and university education

**Music and Institutions in Nineteenth-Century Britain** Paul Rodmell, 2016-04-29 In nineteenth century British society music and musicians were organized as they had never been before This organization was manifested in part by the introduction of music into powerful institutions both out of belief in music's inherently beneficial properties and also to promote music occupations and professions in society at large This book provides a representative and varied sample of the interactions between music and organizations in various locations in the nineteenth century British Empire exploring not only how and why music was institutionalized but also how and why institutions became musicalized Individual essays explore amateur societies that promoted music making institutions that played host to music making groups both amateur and professional music in diverse educational institutions and the relationships between music and what might be referred to as the institutions of state Through all of the essays runs the theme of the various ways in which institutions of varying formality and rigidity interacted with music and musicians and the mutual benefit and exploitation that resulted from that interaction

**The Cambridge History of Nineteenth-Century Music** Jim Samson, 2001-12-03 First published in 2002 this comprehensive overview of music in the nineteenth century draws on extensive scholarship in the field *Hamish MacCunn (1868-1916): A Musical Life* Jennifer L. Oates, 2016-04-22 Hamish MacCunn's career unfolded amidst the restructuring of British musical culture and the rewriting of the Western European political landscape Having risen to fame in the late 1880s with a string of Scottish works MacCunn further highlighted his Caledonian background by cultivating a Scottish artistic persona that defined him throughout his life His attempts to broaden his appeal ultimately failed This along with his difficult personality and a series of poor professional choices led to the slow

demise of what began as a promising career As the first comprehensive study of MacCunn s life the book illustrates how social and cultural situations as well as his personal relationships influenced his career While his fierce loyalty to his friends endeared him to influential people who helped him throughout his career his refusal of his Royal College of Music degree and his failure to complete early commissions assured him a difficult path Drawing upon primary resources Oates traces the development of MacCunn s music chronologically juxtaposing his Scottish and more cosmopolitan compositions within a discussion of his life and other professional activities This picture of MacCunn and his music reveals on the one hand a talented composer who played a role in establishing national identity in British music and on the other a man who unwittingly sabotaged his own career The International Cyclopedia of Music and Musicians Oscar Thompson,1975

**Spirituals and the Birth of a Black Entertainment Industry** Sandra Jean Graham,2018-02-26 Spirituals performed by jubilee troupes became a sensation in post Civil War America First brought to the stage by choral ensembles like the Fisk Jubilee Singers spirituals anchored a wide range of late nineteenth century entertainments including minstrelsy variety and plays by both black and white companies In the first book length treatment of postbellum spirituals in theatrical entertainments Sandra Jean Graham mines a trove of resources to chart the spiritual s journey from the private lives of slaves to the concert stage Graham navigates the conflicting agendas of those who in adapting spirituals for their own ends sold conceptions of racial identity to their patrons In so doing they lay the foundation for a black entertainment industry whose artistic financial and cultural practices extended into the twentieth century A companion website contains jubilee troupe personnel recordings and profiles of 85 jubilee groups Please go to [http://www.press.uillinois.edu/books/graham\\_spirituals](http://www.press.uillinois.edu/books/graham_spirituals)

**The English Musical Renaissance and the Press 1850-1914: Watchmen of Music** Meirion Hughes,2017-07-05 The importance of nineteenth century writing about culture has long been accepted by scholars yet so far as music criticism is concerned Victorian England has been an area of scholarly neglect This state of affairs is all the more surprising given that the quantity of such criticism in the Victorian and Edwardian press was vast much of it displaying a richness and diversity of critical perspectives Through the study of music criticism from several key newspapers and journals specifically The Times Daily Telegraph Athenaeum and The Musical Times this book examines the reception history of new English music in the period surveyed and assesses its cultural social and political importance Music critics projected and promoted English composers to create a national music of which England could be proud J A Fuller Maitland critic on The Times described music journalists as watchmen on the walls of music and Meirion Hughes extends this metaphor to explore their crucial role in building and safeguarding what came to be known as the English Musical Renaissance Part One of the book looks at the critics in the context of the publications for which they worked while Part Two focuses on the relationship between the watchmen critics and three composers Arthur Sullivan Hubert Parry and Edward Elgar Hughes argues that the English Musical Renaissance was ultimately a success thanks largely to the work of the critics In so doing he provides a major re evaluation of the impact

of journalism on British music history      The Oxford Handbook of Music and World Christianities Suzel Ana Reily, Jonathan M. Dueck, 2016-03-25 The Oxford Handbook of Music and World Christianities investigates music's role in everyday practice and social history across the diversity of Christian religions and practices around the globe. The volume explores Christian communities in the Americas, Europe, Africa, Asia, and Australia as sites of transmission, transformation, and creation of deeply diverse musical traditions. The book's contributors, while mostly rooted in ethnomusicology, examine Christianities and their musics in methodologically diverse ways, engaging with musical sound and structure, musical and social history, and ethnography of music and musical performance. These broad materials explore five themes: music and missions; music and religious utopias and other oppositional religious communities; music and conflict; music and transnational flows; and music and everyday life. The volume as a whole then approaches Christian groups and their musics as diverse and powerful windows into the way in which music, religious ideas, capital, and power circulate and change between places, now and historically. It also tries to take account of the religious self-understandings of these groups, presenting Christian musical practice and exchange as encompassing and negotiating deeply felt and deeply rooted moral and cultural values. Given that the centerpiece of the volume is Christian religious musical practice, the volume reveals the active role music plays in maintaining and changing religious moral and cultural values in a long history of intercultural and transnational encounters.

**The British Union Catalogue of Music Periodicals** John Wagstaff, 2019-07-23 First published in 1998, the aim of this catalogue is to help students, researchers, and librarians determine the UK locations of over 2,000 music periodical titles held in public, academic, and national libraries. Over 220 libraries in the UK have been surveyed, from St Austell to Aberdeen, Aberystwyth to Brighton. Each catalogue entry provides detailed information on library holdings and full bibliographic details of periodical titles, including ISSNs. The main catalogue is preceded by an address list and by a preface outlining the history of music periodicals in Britain, together with statistical tables.

**University Musical Encyclopedia: University dictionary of music and musicians** Louis Charles Elson, 1912 These volumes form a complete encyclopedia and history of music and musicians. They comprise a library covering the whole field of musical literature. The material has been written by more than forty of the greatest musicians, critics, and experts on musical subjects in this country and Europe. Copyright 1914. *Light Music in Britain since 1870: A Survey* Geoffrey Self, 2017-07-05 In many ways the history of British light music knits together the social and economic history of the country with that of its general musical heritage. Numerous serious composers, from Elgar to Britten, composed light music, and the genre adapted itself to incorporate the changing fashions heralded by the rise and fall of music hall, the drawing room ballad, ragtime, jazz, and the revue. From the 1950s the recording and broadcasting industries provided a new home for light music as an accompaniment to radio programmes and films. Geoffrey Self deftly handles a wealth of information to illustrate the immense role that light music has played in British culture over the last 130 years. His insightful assessments of the best and the most shameful examples of the genre help to pinpoint its enduring

qualities which enable it to maintain a presence in the face of today's domination by commercial popular music

Spiritual Dimensions in the Music of Edmund Rubbra Lucinda Craddock, 2022-12-20 Edmund Rubbra's music has given him a reputation as a spiritual composer who had an interest in Eastern thought and a mid-life conversion to Roman Catholicism. This book takes a wide and detailed view of spiritual dimensions or strands that were important in his life, positioning them both biographically and within the context of contemporaneous English culture. It proceeds to interpret through detailed analysis the ways these spiritual aspects are reflected in specific compositions. Thematic treatment of these spiritual issues touching on Theosophy, dance, Eastern religions and thought, nature, the evolutionary theory of Teilhard de Chardin and the Christ figure presents a multi-faceted view of Rubbra's life and music. Its contribution to a scholarly re-evaluation of his place within twentieth-century British music and culture engages and meshes with several areas of current scholarly research in the arts and humanities, including academic interest in Theosophy, modernism and the arts, experimental dance and the Indian cultural renaissance and East-West musical interactions of the late nineteenth and early twentieth centuries. It also adds to a burgeoning body of writings on music and spirituality fuelled by the popularity of later twentieth-century and contemporary composers who make more overt spiritual references in their music. **British Women**

**Composers and Instrumental Chamber Music in the Early Twentieth Century** Laura Seddon, 2016-04-15 This is the first full-length study of British women's instrumental chamber music in the early twentieth century. Laura Seddon argues that the Cobbett competitions instigated by Walter Willson Cobbett in 1905 and the formation of the Society of Women Musicians in 1911 contributed to the explosion of instrumental music written by women in this period and highlighted women's place in British musical society in the years leading up to and during the First World War. Seddon investigates the relationship between Cobbett, the Society of Women Musicians and women composers themselves. The book's six case studies of Adela Maddison (1866-1929), Ethel Smyth (1858-1944), Morfydd Owen (1891-1918), Ethel Barns (1880-1948), Alice Verne Bredt (1868-1958) and Susan Spain Dunk (1880-1962) offer valuable insight into the women's musical education and compositional careers. Seddon's discussion of their chamber works for differing instrumental combinations includes an exploration of formal procedures, an issue much discussed by contemporary sources. The individual composers' reactions to the debate instigated by the Society of Women Musicians on the future of women's music is considered in relation to their lives, careers and the chamber music itself. As the composers in this study were not a cohesive group creatively or ideologically, the book draws on primary sources as well as the writings of contemporary commentators to assess the legacy of the chamber works produced.

The musical guide, ed. by R. Hughes Musical guide, 1903 *The Harvard Concise Dictionary of Music and Musicians* Don Michael Randel, 2002-10-30 This compact guide to the history and performance of music offers definitions of musical terms, characterizations of forms of musical composition, entries that identify operas, oratorios, symphonic poems and other works, illustrated descriptions of instruments and capsule summaries of the lives and careers of composers, performers and

theorists     An Imperishable Heritage: British Choral Music from Parry to Dyson Stephen Town, 2016-04-15 The rehabilitation of British music began with Hubert Parry and Charles Villiers Stanford Ralph Vaughan Williams assisted in its emancipation from continental models while Gerald Finzi Edmund Rubbra and George Dyson flourished in its independence Stephen Town's survey of Choral Music of the English Musical Renaissance is rooted in close examination of selected works from these composers Town collates the substantial secondary literature on these composers and brings to bear his own study of the autograph manuscripts The latter form an unparalleled record of compositional process and shed new light on the compositions as they have come down to us in their published and recorded form This close study of the sources allows Town to identify for the first time instances of similarity and imitation continuities and connections between the works     *A Social History of Amateur Music-Making and Scottish National Identity: Scotland's Printed Music, 1880-1951* Karen E. McAulay, 2024-10-30 Late Victorian Scotland had a flourishing music publishing trade evidenced by the survival of a plethora of vocal scores and dance tune books and whether informing us what people actually sang and played at home danced to or enjoyed in choirs or reminding us of the impact of emigration from Britain for both emigrants and their families left behind examining this neglected repertoire provides an insight into Scottish musical culture and is a valuable addition to the broader social history of Scotland The decline of the music trade by the mid twentieth century is attributable to various factors some external but others due to the conservative and perhaps somewhat parochial nature of the publishers output What survives bears witness to the importance of domestic and amateur music making in ordinary lives between 1880 and 1950 Much of the music is now little more than a historical artefact Nonetheless Karen E McAulay shows that the nature of the music the song and fiddle tune books contents the paratext around the collections its packaging marketing and dissemination all document the social history of an era whose everyday music has often been dismissed as not significant or indeed properly old enough to merit consideration The book will be valuable for academics as well as folk musicians and those interested in the social and musical history of Scotland and the British Isles     *Cathedral Organists Past and Present* John Ebenezer West, 1921     **Musical times and singing-class circular** , 1884
