*Religion and the Obligations of Citizenship* Paul J. Weithman, 2002-08-15 In *Religion and the Obligations of Citizenship* Paul J Weithman asks whether citizens in a liberal democracy may base their votes and their public political arguments on their religious beliefs Drawing on empirical studies of how religion actually functions in politics he

challenges the standard view that citizens who rely on religious reasons must be prepared to make good their arguments by appealing to reasons that are accessible to others He contends that churches contribute to democracy by enriching political debate and by facilitating political participation especially among the poor and minorities and as a consequence citizens acquire religiously based political views and diverse views of their own citizenship He concludes that the philosophical view which most defensibly accommodates this diversity is one that allows ordinary citizens to draw on the views their churches have formed when voting and offering public arguments for their political positions

**Antigone's Claim** Judith Butler, 2002-05-23 The celebrated author of *Gender Trouble* here redefines Antigone's legacy recovering her revolutionary significance and liberating it for a progressive feminism and sexual politics Butler's new interpretation does nothing less than reconceptualize the incest taboo in relation to kinship and open up the concept of kinship to cultural change Antigone the renowned insurgent from Sophocles's *Oedipus* has long been a feminist icon of defiance But what has remained unclear is whether she escapes from the forms of power that she opposes Antigone proves to be a more ambivalent figure for feminism than has been acknowledged since the form of

defiance she exemplifies also leads to her death Butler argues that Antigone represents a form of feminist and sexual agency that is fraught with risk Moreover Antigone shows how the constraints of normative kinship unfairly decide what will and will not be a livable life Butler explores the meaning of Antigone wondering what forms of kinship might have allowed her to live Along the way she considers the works of such philosophers as Hegel Lacan and Irigaray How she asks would psychoanalysis have been different if it had taken Antigone the post-oedipal subject rather than Oedipus as its point of departure If the incest taboo is reconceived so that it does not mandate heterosexuality as its solution what forms of sexual alliance and new kinship might be acknowledged as a result The book relates the courageous deeds of Antigone to the claims made by those whose relations are still not honored as those of proper kinship showing how a culture of normative heterosexuality obstructs our capacity to see what sexual freedom and political agency could be Let Not Man Put Asunder Chris Christian,2016-12-09 This book presents a biblical and historical view of marriage divorce and remarriage to explore the heart of God on these subjects It is intended to provide critical insights needed for counselors to provide biblical based counseling for these difficult and challenging topics that lead to lifelong fulfilling marriage relationships Couples who are currently struggling in their marriage will find encouragement and direction for building strong and vibrant marriages Those that have been divorced will find reason to believe that God can restore and reconcile the broken marriage relationship better than it was in the beginning Those that have been remarried following a divorce will discover that they can find peace with God and now build a lifelong marriage that honors the vows made with the new spouse Diversity in Architecture Jan Smitheram,Akari Nakai Kidd,2025-08-15 Diversity in Architecture Intersectionality Affective Politics and Creating Change explores diversity in architecture through an intersectional lens It examines how overlapping individual identities cultural ideologies and institutional practices shape the profession Divided into two parts this book first explores how values norms and ideologies are constructed circulated and reinforced through media representations both from without and from within The second leans into voices from academics and architects within spaces of education and practice who share their lived experiences navigating power structures and affective politics that marginalise diverse voices Considering praxis and actions to create change where care is central it asks what happens if we bring intersectionality to the picture of diversity in architecture through media education practice How can affective solidarity and relationality foster change What role does intersectional care play in dismantling systemic barriers and reimagining a more inclusive future Written in dialogue with and for architectural academics practitioners students as well as wider audiences invested in diversity this book opens its readers to the importance of mobilising diversity in architecture through intersectionality and affect towards lasting change **The Drowned City** Jennifer Atkinson,2000 What happens when belief as artistic ambition as a lover's devotion as faith in divinity is met with a staggering indifference This is the question which Jennifer Atkinson's *The Drowned City* seeks variously to answer and to which the poems themselves finally elegantly unflinchingly become the only appropriate answer one that does

not offer closure to its questions so much as a means of fashioning a life inside them from the Foreword Poetical Works
