CAPLAN,2019-06-28 Traumatized veterans are often diagnosed as suffering from a psychiatric disorder and prescribed a regimen of psychotherapy and psychiatric drugs But why asks psychologist Paula J Caplan in this impassioned book is it a mental illness to be devastated by war or other intolerable experiences such as military sexual assault What is a mentally healthy response to death destruction and moral horror In *When Johnny and Jane Come Marching Home* Caplan argues that the standard treatment of therapy and drugs is often actually harmful It adds to veterans burdens by making them believe wrongly that they should have gotten over it it isolates them behind the closed doors of the therapist s office and it makes them rely on often harmful drugs The numbers of traumatized veterans from past and present wars who continue to suffer demonstrate the ineffectiveness of this approach Sending anguished veterans off to talk to therapists writes Caplan conveys the message that the rest of us don t want to listen or that we don t feel qualified to listen As a result the truth about war is kept under wraps Most of us remain ignorant about what war is really like and continue to allow our governments to go to war without much protest Caplan proposes an alternative that we welcome veterans back into our communities and listen to their stories one on one She provides guidelines for conducting these conversations This would begin a long overdue national discussion about the realities of war and it would start the healing process for our returning veterans **Because the**

through the night She wrote her stories by living them until eventually life on the thin edge of risk began to seem normal After she married Katie and her husband vowed to raise their daughters to be adventurous too in the mountains and canyons of New Mexico But when her father died of cancer she was forced to confront her own mortality His death was cataclysmic unleashing a perfect storm of grief and anxiety She and her father an enigmatic photographer for National Geographic had always been kindred spirits He introduced her to the outdoors and took her camping and on bicycle trips and down rivers and taught her to find solace and courage in the natural world And it was he who encouraged her to run her first race when she was seven years old Now nearly paralyzed by fear and terrified she was dying too she turned to the thing that had always made her feel most alive running Over the course of three tumultuous years she ran alone through the wilderness logging longer and longer distances first a 50 kilometer ultramarathon then 50 miles then 100 kilometers She ran to heal her grief to outpace her worry that she wouldn't live to raise her own daughters She ran to find strength in her weakness She ran to remember and to forget She ran to live Ultrarunning tests the limits of human endurance over seemingly inhuman distances and as she clocked miles across mesas and mountains Katie learned to tolerate pain and discomfort and face her fears of uncertainty vulnerability and even death itself As she ran she found herself peeling back the layers of her relationship with her father discovering that much of what she thought she knew about him and her own past was wrong Running Home is a memoir about the stories we tell ourselves to make sense of our world the stories that hold us back and the ones that set us free Mesmerizing transcendent and deeply exhilarating it is a book for anyone who has been knocked over by life or feels the pull of something bigger and wilder within themselves A beautiful work of searching remembrance and searing honesty Katie Arnold is as gifted on the page as she is on the trail Running Home will soon join such classics as Born to Run and Ultramarathon Man as quintessential reading of the genre Hampton Sides author of On Desperate Ground and Ghost Soldiers
