Popular Texts in English Antonio Ballesteros González,2001 This book comprises a collection of articles devoted to the academic study of popular texts in English Authors analyse genres which had been habitually looked down on by canonical approaches to literature and art They take into serious consideration forms like horror literature the gothic fantasy de tective fiction science fiction best sellers films and television series of different kinds among some other representations of what conservative scholars had been considering as marginal The referential richness of the perspectives reflected here demonstrates that popular texts can be enjoyable for readers and audiences at the same time that they can be significant in order to reach a better understanding of our culture and ourselves at the beginning of a new millennium **On Leopard**

Rock Wilbur Smith,2018-05-01 The first ever memoir from the Number One global bestselling adventure author Wilbur Smith has lived an incredible life of adventure and now he shares the extraordinary true stories that have inspired his fiction I ve been writing novels for over fifty years I was lucky enough to miss the big wars and not get shot but lucky enough to grow up among the heroes who had served in them and learn from their example I have lucked into things continuously I have done things which have seemed appalling at the time disastrous even but out of them have come another story or a

Life as a Hunt Stuart Marks,2016-09-01 The extensive wilderness of Zambia s central Luangwa Valley is the homeland of the Valley Bisa whose cultural practices have enriched this environment for centuries Beginning with the intrusions of warlords and later British colonials successive generations have experienced the callousness and challenges of colonialism Their homeland a slender corridor surrounded by three national parks and an escarpment is a microcosm of the political economic and cultural battlefields surrounding most African protected areas today The story of the Valley Bisa diverges from the myths that conservationists administrators and philanthropists tell about Africa s environmental and wildlife crises
