*Nordic Literature* Steven P. Sondrup, Mark B. Sandberg, Thomas A. DuBois, Dan Ringgaard, 2017-12-15. *Nordic Literature* is a multi-volume comparative analysis of the literature of the Nordic region. Bringing together the literature of Finland, continental Scandinavia (Sweden, Norway, Denmark) and the insular region (Iceland, Greenland and the Faroe Islands), each volume of this three-volume project adopts a new frame through which one can recognize and analyze significant clusters of literary practice. This first volume, *Spatial Nodes*, devotes its attention to the changing literary figurations of space by Nordic writers from medieval to contemporary times. Organized around the depiction of various scapes and spatial practices at home and abroad, this approach to Nordic literature stretches existing notions of temporally linear, nationally centered literary history and allows questions of internal regional similarities and differences to emerge more strongly. The productive historical contingency of the North as a literary space becomes clear in this close analysis of its literary texts and practices.

Cultural Semantics and Social Cognition Carsten Levisen, 2012-12-06. Presenting original, detailed studies of keywords of Danish, this book breaks new ground for the study of language and cultural values. Based on evidence from the semantic categories of everyday language such as the Danish concept of *hygge* (roughly meaning pleasant togetherness), the book provides an integrative socio-cognitive framework for studying and understanding language-particular universes. It is argued that the worlds we live in are not linguistically and conceptually neutral but rather that speakers who live by Danish concepts are likely to pay attention to their world in ways

suggested by central Danish keywords and lexical grids By means of a sophisticated semantic methodology the author accounts for the meanings of even highly culture specific and untranslatable linguistic concepts The book offers new tools for comparative research into the diversity of semantic and cultural systems in contemporary Europe Additionally it contributes to the emerging discipline of cultural semantics and to the ongoing debates of linguistic diversity metalanguage and the use of linguistic evidence in studies of culture and social cognition *Logic, Rationality, and Interaction* Alexandru Baltag,Jeremy Seligman,Tomoyuki Yamada,2017-09-01 This LNCS volume is part of FoLLI book serie and contains the papers presented at the 6th International Workshop on Logic Rationality and Interaction LORI VI held in September 2017 in Sapporo Japan The focus of the workshop is on following topics Agency Argumentation and Agreement Belief Revision and Belief Merging Belief Representation Cooperation Decision making and Planning Natural Language Philosophy and Philosophical Logic and Strategic Reasoning **Dreams and Self-Development** Ann Aaboe Bengtsson,2015-08-25 Dreams are important messengers in the process of Self Development They can give you information about obstacles and suggest solutions such as new ways of thinking feeling and acting in your life Dreams can also tell you about the past the present or the future They may point out what to look for or which direction to take A dream may also awaken us to spiritual experiences and higher states of consciousness This book combines the interpretation of dream symbols and their relation to the physical body and the subtle anatomy of man It also suggests simple meditative exercises related to dream symbols the physical body and the chakras Theories are exemplified by practical dream work and illustrated and enlivened with symbolism from for example science fiction movies fantasy literature and dance Argentine tango The author s inspiration and theory come from C G Jung Jes Bertelsen Wilhelm Reich and other body therapists and from Bob Moore as the main spiritual teacher *The Norseman* ,1996 **Games, Threats and Treaties** Jon Hovi,1998 Organised in 3 parts and using modern game theory as an analytical tool this book analyses the difficult art of commitment in international relations No knowledge of game theory is needed for this book Norwegian Literature ,1996 **Institutional and Organizational Economics** Tore Ellingsen,2023-09-20 Why do some countries succeed while others struggle Why are some firms profitable while rivals fail Why do some marriages thrive and others end in divorce These questions seem unrelated but societies companies and marriages have one important thing in common they involve more than one individual They thus face the same fundamental challenges How can people be made to help rather than hurt each other How can they use sacrifice cooperation and coercion to promote the common good In this introductory text Tore Ellingsen equips readers to answer essential questions around the success and failure of humans in groups drawing on behavioral game theory psychology and sociology He emphasizes how other regarding preferences such as altruism and dutifulness matter for societies prosperity and analyzes the role of culture in the form of shared values and understandings One lesson is that cooperation is facilitated when people anticipate that they will hold common memories of past behavior especially if agreements take precedence over leaders authority A
