IPv6 Mandates Karl A. Siil,2008-03-10 Here s the guide you need for a smooth transition to IPv6 Ready or not IPv6 is coming While every enterprise will have some individual issues to manage this guide will help you decide on a transition strategy develop a plan execute it and verify progress You ll understand the common tasks and recognize the risks and limitations of IPv6 Follow the guidelines use the checklists and you will find that making the transition is no longer intimidating in fact it may even require fewer resources than you anticipate Handle your transition as you would any large scale technology rollout Know at every stage whether you re on track and how to fix things if you re not Understand the Federal mandates that are driving IPv6 adoption Craft plans that take into account the unique elements and pitfalls related to IPv6 Discover IPv6 specific issues such as rules regarding the use and allocation of IPv6 addresses Establish groups of tasks identify and resolve dependencies among them and assign an optimal order for execution Maintain your newly IPv6 capable network to keep it operational and secure

What is DevOps? Mike Loukides,2012-06-05 Have we entered the age of NoOps infrastructures Hardly Old style system administrators may be disappearing in the face of automation and cloud computing but operations have become more significant than ever As this O Reilly Radar Report explains we re moving into a more complex arrangement known as DevOps Mike Loukides O Reilly s VP of Content Strategy provides an incisive look into this new world of operations where IT specialists are becoming part of the development team In an environment with thousands of servers these specialists now write the code that maintains the infrastructure Even applications that run in the cloud have to be resilient and fault tolerant need to be monitored and must adjust to huge swings in load That was underscored by Amazon s EBS outage last year From the discussions at O Reilly s Velocity Conference it s evident that many operations specialists are quickly adapting to the DevOps reality But as a whole the industry has just scratched the surface This report tells you why
