The Care of Things Jerome Denis, David Pontille, 2025-01-22 What does a coffee machine a car road signs a smartphone a cathedral a work of art a satellite a bicycle a washing machine a bridge a watch a computer the body of a prominent politician and a tractor have in common Pretty much nothing except for the fact that no matter how small large important or insignificant something is it rarely survives without being cared for Every object eventually experiences wear and tear it deteriorates stops working or breaks down But are we giving the care of things the recognition it deserves A counterpoint to our modern obsession with innovation but less striking than the one off act of restoration the delicate act of making things last rarely attracts our attention This book disrupts our dominant narratives by putting those individuals skilled in the art of maintenance front and centre J r me Denis and David Pontille shine a spotlight on the subtle aspects of caring for things tracing the stories of those involved and with them the ethical challenges raised and political lessons learned These people demonstrate a sensitivity and attentiveness to fragility they encourage us to cultivate a material diplomacy in which wear is accepted and our relation to things becomes a matter of negotiation and compromise a far cry from the frenetic rhythm of planned obsolescence inherent in hyper consumerism Maintenance demarcates the contours of a world in which we have relinquished the human longing for unlimited power and technological autonomy a world where our attachment to things is more profound than we ever imagined
