**Abnormal Psychology**

Ronald J. Comer, 2012-02 Ron Comer's *Abnormal Psychology* continues to captivate students with its integrated coverage of theory, diagnosis, and treatment; its inclusive, wide-ranging cross-cultural perspective; and its compassionate emphasis on the real impact of mental illness on the lives of patients and their families. Long acclaimed for being well attuned to the evolution of the field and changes in the classroom, Comer's bestselling text returns in a timely new edition, fully updated in anticipation of the DSM-5 and enhanced by powerful new media tools.

**Virgil's Map** Charlie Kerrigan, 2020-09-03 Virgil's *Georgics* depicts the world and its peoples in great detail, but this geographical interest has received little detailed scholarly attention. Hundreds of years later, readers in the British empire used the poem to reflect upon their travels in acts of imagination, no less political than Virgil's own. *Virgil's Map* combines a comprehensive survey of the literary, economic, and political geography of the *Georgics* with a case study of its British imperial reception, c. 1840-1930. Part One charts the poem's geographical interests in relation to Roman power in and beyond the Mediterranean, shifting readers' attention away from Rome; it explores how the *Georgics* can draw attention to alternative, non-Roman histories. Part Two examines how British travellers quoted directly from the poem to describe peoples and places across the world, at times equating the colonial subjects of European empires to the happy farmers of Virgil's poem, perceived to be unaware and in need of the blessings of colonial rule. Drawing attention to the depoliticization of the poem in scholarly discourse and using newly discovered archival material, this interdisciplinary work seeks to re-politicize both the poem and its history in service of a decolonizing pedagogy. Its unique dual focus allows for an extended exploration not just of geography and empire but of Europe's long relationship with the wider world.

**Neoliberalism** Matthew Eagleton-Pierce, 2016-05-20 *Neoliberalism: The Key Concepts* provides a critical guide to a vocabulary that has become globally dominant over the past forty years. The language of neoliberalism both constructs and expresses a particular vision of economics, politics, and everyday life. Some find this vision to be appealing, but many others find the contents and implications of neoliberalism to be alarming. Despite the popularity of these concepts, they often remain confusing, the product of contested histories, meanings, and practices. In an accessible way, this interdisciplinary resource explores and dissects key terms such as Capitalism, Choice, Competition, Entrepreneurship, Finance, Flexibility, Freedom, Governance, Market Reform, Stakeholder, State. Complete with an introductory essay, cross-referencing, and an extensive bibliography, this book provides a unique and insightful introduction to the study of neoliberalism in all its forms and disguises.

## Whispering the Techniques of Language: An Emotional Quest through **Oxford Ib Chinese B Guide**

In a digitally-driven earth wherever screens reign supreme and immediate conversation drowns out the subtleties of language, the profound secrets and mental subtleties hidden within words usually move unheard. Yet, located within the pages of **Oxford Ib Chinese B Guide** a interesting fictional treasure pulsing with fresh emotions, lies a fantastic quest waiting to be undertaken. Written by a talented wordsmith, that enchanting opus encourages visitors on an introspective trip, delicately unraveling the veiled truths and profound affect resonating within the cloth of each word. Within the emotional depths of this moving review, we can embark upon a sincere exploration of the book is core subjects, dissect its charming publishing design, and fail to the effective resonance it evokes serious within the recesses of readers hearts.
