Planting A New Perspective:

Planting Noel Kingsbury, Piet Oudolf, 2013-04-09 *Planting A New Perspective* is an essential resource for designers and gardeners looking to create plant rich beautiful gardens that support biodiversity and nourish the human spirit. An intimate knowledge of plants is essential to the success of modern landscape design and *Planting* makes Oudolf's considerable understanding of plant ecology and performance accessible explaining how plants behave in different situations what goes on underground and which species make good neighbors. Extensive plant charts and planting plans will help you choose plants for their structure color and texture as well as the way they perform in the landscape. A detailed directory with details like each plant's life expectancy the persistence of its seedheads its tendency to spread and propensity to self seed this book is a beautiful and invaluable resource.

Planting Design Patrick Mooney, 2019-10-30 Landscape designers have long understood the use of plants to provide beauty aesthetic pleasure and visual stimulation while supporting a broad range of functional goals. However the potential for plants in the landscape to elicit human involvement and provide mental stimulation and restoration is much less well understood. This book meshes the art of planting design with an understanding of how humans respond to natural environments. Beginning with an understanding of human needs preferences and responses to landscape the author interprets the ways in which an understanding of the human environment interaction can inform planting design. Many of the principles and techniques that may be used in planting design are beautifully illustrated in full colour with examples by leading landscape architects and designers from the United Kingdom Europe North America and Asia including Andrea Cochran, Andrea Cochran Landscape Architecture, San Francisco, CA, Design Workshop Inc, Richard Hartlage Land Morphology, Seattle, WA, Shunmyo Masuno, Japan Landscape Consultants Ltd, Yokohama, Piet Oudolf, Hummelo, The Netherlands, Melody Redekop, Vancouver, Christine Ten Eyck, Ten Eyck Landscape Architects Inc, Austin, TX, Kongjian Yu, Turenscape Ltd, Beijing. The book stimulates thought provides new direction and assists the reader to find their own unique design voice. Because there are many valid processes and intentions for landscape design the book is not intended to be overly prescriptive. Rather than presenting a strict design method and accompanying set of rules *Planting Design* provides information insight and inspiration as a basis for developing the individual designer's own expression in this most challenging of art forms.

It is Piet Oudolf's home his personal garden laboratory a former nursery run by his wife Anja and the place where he first tested new designs and created the new varieties of perennials that are now widely available. A follow up to Oudolf's successful *Landscapes* in *Landscapes Hummelo* tells the story of how the garden has evolved over the past three decades since Oudolf, Anja and their two young sons moved onto the property with its loamy sand.
