**Youth and Popular Culture in Africa** Paul Ugor, 2021 The edited collection focuses on the links between young people and African popular culture It explores popular culture produced and consumed by young people in contemporary Africa And by culture we mean all kinds of texts or representations visual oral written performative fictional social and virtual created by African youth mostly about their lives and their immediate societies and for themselves but also consumed by the larger public and shared locally and globally We proceed from the premise that cultural texts not only function as social facts as Karin Barber argues but that they double as commentaries upon and interpretations of social facts They are part of social reality but they also take up an attitude to social reality 2007 04 So the work focuses specifically on what African youth produce as popular culture under what conditions or contexts they produce such work how they produce those texts why they produce them the aesthetic dimensions of these texts as cultural artifacts and why these textual practices matter as social facts as interpretive acts and as cultural symbols of the general cultural activism of young people in a rapidly changing world a world where the global cultural economy is the prime terrain for the relentless struggles over the meanings that come to shape political economic and social systems

hoc and ubiquitous computing [Servamus](#) ,2007 **Financial Mail** ,2006-07 *Playing the Changes* Darius Brubeck, Catherine Brubeck, 2024-07-23 Catherine and Darius Brubeck's 1983 move to South Africa launched them on a journey that helped transform jazz education. Blending biography with storytelling, the pair recount their time at the University of KwaZulu Natal where they built a pioneering academic program in jazz music and managed and organized bands, concerts and tours around the world. The Brubecks and the musicians faced innumerable obstacles from the intensification of apartheid and a lack of resources to the hardscrabble lives that forced even the most talented artists to the margins. Building a program grounded in multi-culturalism, Catherine and Darius encouraged black and white musicians to explore and expand the landscape of South African jazz together. Their story details the sometimes wily, sometimes hilarious problem-solving necessary to move the institution forward while offering insightful portraits of South African jazz players at work on stage and providing a soundtrack to the freedom struggle and its aftermath. Frank and richly detailed, *Playing the Changes* provides insiders' accounts of how jazz intertwined with struggle and both expressed and resisted the bitter unfairness of apartheid-era South Africa. [Higher Education Pathways](#) Ashwin, Paul, Case, Jennifer M., 2018-12-14 In what ways does access to undergraduate education have a transformative impact on people and societies? What conditions are required for this impact to occur? What are the pathways from an undergraduate education to the public good, including inclusive economic development? These questions have particular resonance in the South African higher education context, which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent. Higher education is recognised in core legislation as having a distinctive and crucial role in building post-apartheid society. Undergraduate education is seen as central to addressing skills shortages in South Africa. It is also seen to yield significant social returns, including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits. This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues. **Rethinking Higher Education in Post-Apartheid South Africa** Emnet Tadesse Woldegiorgis, Logan Govender, Dennis Zami Atibuni, 2025-07-25 This book explores the opportunities and epistemological and structural challenges facing higher education in postcolonial South Africa and argues for a fundamental transformation to meet the needs of the 21st century. Taking the concept of transformation as a unifying thread, this book discusses the evolving trajectories of higher education in South Africa with particular emphasis on the decolonial initiatives that have emerged in the post-Apartheid era. During this time, there have been persistent calls for South Africa to move beyond Eurocentric education programmes and curricula in favour of a system that reflects the continent's culture and identities of all South Africans. The book argues that incremental reforms of existing structures are insufficient and that instead a deeper, more fundamental shift in higher education structures, values and systems is needed. Overall, the book calls for a comprehensive transformation to expand access for

historically disadvantaged communities enhance quality and competitiveness address past injustices and improve the quality and capacity to act together for a more sustainable and just future Also exploring the digital transformations which have accelerated in the wake of the COVID 19 pandemic this book will be an essential read for researchers and policymakers working on higher education in South Africa
