Campus Student Activism, Politics, and Citizenship in the 21st Century Tshishonga, Ndwakhulu, 2025-04-03

Student activism and citizenship remain an integral part of the governance of academic institutions democratizing the learning environment and advancing democratic values and societal change. As a result, student activism has become a key aspect of the global higher education landscape. Individually and through the student councils, students have been at the forefront fighting for social justice and equality inside their academic institutions and in larger society by fusing activism with citizenship. Through student activism and citizenship, students demonstrate their power to keep governments responsible and in redirecting the voices of students in higher education's decision-making processes. Further exploration may afford students the opportunity to influence social change by partaking in educational policy reforms and broadening global sociopolitical and economic growth. **Campus Student Activism, Politics, and Citizenship in the 21st Century** examines the dynamics of campus politics through student activism and citizenship perspectives, academia, public, private, and civil society sectors. It explores how student leadership engages university society stakeholders including management and governance structures and student welfare and institutional policy reformation in defense of the rights and interests of students. This book covers topics such as higher education political engagement and social justice and is a useful resource for policymakers, government officials, sociologists, political scientists, academicians, and researchers.

Poverty, Inequality, and Innovation in the Global South Oliver Mtsheni, 2023-03-03 This edited volume analyzes the experiences learned in practice especially among small holder farmers to eradicate poverty. In other words, it discusses practical solutions which small scale farmers can use to alleviate poverty and reduce inequality. This addresses the issue of inclusive and sustainability of projects leading to the notion of not leaving anyone behind. The book provides insights that can be translated into policy with potential to inform practice. It also has the potential to address the issue of rural urban migration by providing knowledge that is usable by small scale farmers, policy makers, and entrepreneurs alike. The volume is written by authors from different countries: Nigeria, Tanzania, and Zimbabwe, indicating the commonality of the problems of poverty and inequality. It contains insights from all these countries assembled together into an amalgam of practices ready to use and implement, informed by evidence from the field as most of the chapters are based on empirical data.

Arming Black Consciousness Toivo Tukongeni Paul Wilson Asheke, 2023-06-08 Since 1994, as the ruling party in South Africa, the ANC have become synonymous with and indivisible from the fight against apartheid rule. This has left little space for competing accounts, visions, and political projects to find their appropriate place in the historical narrative. In this innovative book, Toivo Asheke moves beyond these well-trodden histories to tell the previously neglected story of the Black Consciousness Movement (BCM), a militant revolutionary nationalist wing of the anti-colonial struggle. Using archival sources from four countries and interviews with former veterans of the movement, Asheke explores the BCM's engagement with guerrilla warfare, community feminism, and Black
