Turkey And The West From Neutrality To Commitment:

Turkey and the West Yusuf Turan Çetiner, 2015 Turkey and the West discusses the Turkish foreign policy that was pursued in the post Atatürk period of 1938 to 1958 It offers a reinterpretation of Turkey's uneasy shift from neutrality to join the Western Alliance which continuously shaped Turkey's apprehension of regional and world politics in decades to come

Selahattin Ülkümen, the Turkish Righteous among the Nations Yücel Güçlü, 2022-04-08 The history of the Holocaust is far from complete Even with more than seven decades of Holocaust research and writing behind us there are many specialist topics within Holocaust historiography that have not been dealt with in detail including the role of Turkey This has caused the researchers of the Holocaust in other countries to often include limited outdated and sometimes incorrect data about Turkey in their studies Within the flood of publications on Holocaust history that has been rising since the 1990s and which has maintained its momentum ever since studies on the role of Turkey remain comparatively underexplored Selahattin Ülkümen a Turk is the only Muslim diplomat who thus far has been designated as Righteous among the Nations by the Yad Vashem the Holocaust Martyrs and Heroes Authority in Jerusalem for saving at his own risk the lives of 42 Jews in Rhodes from the Nazis in 1944 Thus momentarily thrust into prominence he excites a certain curiosity However current scholarship has failed to reveal a single monograph or even an article in periodical literature on him Neither Turk nor Westerner has devoted more than a few pages to his exploits References to him in other sources are slight and fall short of explaining a satisfactory explanation of his deeds The remarkable story of Ülkümen is an important but little known aspect of Turkish history in the Second World War period He is an individual who has not received the attention he deserves This book serves to fill this historiographical void It draws on the previously unused files of the Turkish Ministry of Foreign Affairs the Yad Vashem Archives and available primary and secondary sources in Turkish English and French

Turkey's Cold War Saban Halis Çalis, 2016-11-30 Drawing on a variety of sources ranging from interviews with key figures to unpublished archival material Saban Halis Çalis traces this ambition back to the 1930s In doing so he demonstrates that Turkey's policy has been shaped not just by US and Soviet positions but also by its own desire both to reinforce its Kemalist character and to Westernise The Cold War therefore can be seen as an opportunity for Turkey to realise its long held goal and align itself economically and politically with the West This book will shed new light on the Cold War and Turkey's modern diplomacy and re-orientate existing understandings of modern Turkish identity and its diplomatic history

Safeguarding Democratic Capitalism Melvyn P. Leffler,2017-08-02 *Safeguarding Democratic Capitalism* gathers together decades of writing by Melvyn Leffler one of the most respected historians of American foreign policy to address important questions about U S national security policy from the end of World War I to the global war on terror Why did the United States withdraw strategically from Europe after World War I and not after World War II How did World War II reshape Americans understanding of their vital interests What caused the United States to achieve victory in the long Cold War To what extent did 9 11 transform U S national security policy Is budgetary austerity a fundamental threat to U S national interests Leffler s wide ranging essays explain how foreign policy evolved into national security policy He stresses the competing priorities that forced policymakers to make agonizing trade offs and illuminates the travails of the policymaking process itself While assessing the course of U S national security policy he also interrogates the evolution of his own scholarship Over time slowly and almost unconsciously Leffler s work has married elements of revisionism with realism to form a unique synthesis that uses threat perception as a lens to understand how and why policymakers reconcile the pressures emanating from external dangers and internal priorities An account of the development of U S national security policy by one of its most influential thinkers *Safeguarding Democratic Capitalism* includes a substantial new introduction from the author

Religion and the Populist Radical Right: Secular Christianity and Populism in Western Europe Nicholas Morieson,2021-07-06 In Western Europe populist radical right parties are calling for a return to Christian or Judeo Christian values and identity The growing electoral success of many of these parties may suggest that after decades of secularisation Western Europeans are returning to religion Yet these parties do not tell their supporters to go to church believe in God or practise traditional Christian values Instead they claim that their respective national identities and cultures are the product of a Christian or Judeo Christian tradition which either encompasses or has produced secular modernity This book poses the question if Western European politics is secular why has religious identity become a core element of populist radical right discourse To answer this question Morieson examines the discursive use of religion by two of the most powerful and influential populist radical right parties The French National Front and the Dutch Party for Freedom Based on this examination he argues that the populist radical right has capitalised on a cultural shift engendered by the increasing visibility of Islam in Europe Western Europeans encounter with Islam has revealed the non universal nature of Western European secularism to Europeans and demonstrated the secularisation of Christianity into Western European culture This in turn has allowed secular French and Dutch citizens to identify themselves as well as their nation and ultimately Western civilisation as Christian or Judeo Christian Seizing on this cultural shift the author contends that the National Front and Party for Freedom have built successful and similar brands of reactionary politics based on the notion that contemporary secularism is a product of Europe s Christian heritage and values and that therefore Muslim immigration is an existential threat to the core values of European politics including the differentiation of politics and religion and of church and state Religion and the Populist Radical Right Secular Christianity and Populism in Western Europe will be of interest to scholars and researchers working on the intersections of Political Science Sociology and Religion It will also appeal to the general audience interested in the relationship between populism in Western Europe and religious identity as it is written in an accessible style
