The Morals of Life Davide Tarizzo, 2024-08-06 A theory of biopolitical power that updates Foucault illustrating the moral implications of modern evolutionary theory In our day the individual has become a life the singular of the plural noun population From this new understanding of what it means to be human comes a new form of biopolitical power with a new set of moral rules In The Morals of Life moral philosopher Davide Tarizzo presents a theoretical framework for understanding this transformation of the old fashioned government of living beings as Michel Foucault characterized biopolitics into a new government of modular living beings as well as a template for making sense of biopolitical power that operates on the scale of populations rather than individuals Tarizzo traces population thinking the notion of modular optimization and other conceptual keystones of the current biopolitical regime an ethopolitical regime in the author's terms to their origins in twentieth century biological thought more precisely and critically evolutionary theory Neo Darwinism

Tarizzo argues should be seen not only as a scientific paradigm but also as a philosophy per se because it is evolutionary theory that today provides an answer to the old philosophical question What is man This new kind of philosophy his book suggests largely determines the way in which people look at themselves and society Not only does it contribute to designing new technologies of power but it also fosters subjection to the new ethopolitical regime **Monatshefte Für Deutschen Unterricht** ,1967 **Psychology** Peter O. Gray,2010-01-04 An introductory text that explores psychology s major theories and the evidence that supports and refutes them This title incorporates research helping students to probe for the purposes and biological origins of behaviour the whys and hows of human psychology Teacher Education for Languages for Specific Purposes Ron Howard,Gillian Brown,1997 This work summarizes and synthesizes the substantial crime prevention literature to provide an approachable and comprehensive text for students It sets out a critical analysis in the context of the politics of criminal justice policy
