Schwartz,Shinji Takagi,2017-06-30 This volume book brings together nine background papers prepared for an evaluation by the IMF Independent Evaluation Office of the IMF and the crises in Greece Ireland and Portugal It presents an authoritative work on the evolving relationship between the IMF and the euro area a common currency area founded in 1999 consisting of advanced highly integrated economies in Europe The euro area or any common currency area for that matter has posed challenges to the IMF s operational activities as its Articles of Agreement

contain no provision for joint membership The challenges became intense when a series of crises erupted in Greece Ireland and Portugal from 2009 to 2011 and the Fund was called upon to help intervene by offering its financing and crisis management expertise The IMF found itself in uncharted territory where there was no precedent or established procedure The chapters many of which are prepared by prominent academics and former senior IMF officials who are thoroughly familiar with internal procedures discuss various aspects of the IMF s engagement with the euro area including precrisis surveillance how key decisions were made how the IMF collaborated with European institutions and how it designed and implemented its lending programs with the three crisis countries The book gives prominence to governance related issues given the large voting share of more than 20 percent within the IMF of euro area members and the subsequent public perception that the IMF treated the euro area more favorably than it does developing and emerging market members The approaches are both cross cutting and country based Some chapters deal with issues related to the euro area as a whole while others focus on how the Fund engaged with individual euro area countries The book contains a statement on the IEO evaluation by the IMF Managing Director and a Summing Up of the Executive Board discussion held in July 2016

St. Louis Daily Market Reporter and Merchants Exchange Price Current ,1913 [China and Its Small Neighbors](#) Sung Chull Kim,2023-03-01 In [China and Its Small Neighbors](#) Sung Chull Kim examines the political implications of the economic asymmetry between China and its small neighbors part of wider changes in international relations brought about by the rise of China While being critical of the current trend that focuses on the China U S rivalry alone Kim argues that a microanalysis of China s advances toward its neighbors is a guide to understanding the trajectory of China s expanding influence and transitions in world politics more broadly Economic asymmetry as seen in trade concentration non transparency and reliance on bilateral aid has made China s small neighbors vulnerable on the political

front thus generating potential threats to their sovereignty and independence Because China has the upper hand in the bilateral relationships these weak states practice dual core hedging as a strategy for survival They hedge on China for expected economic benefits and at the same time hedge against their powerful neighbor to mitigate the risks involved in that hedging on Each small state s mode of hedging depends on its degree of vulnerability and its availability of policy instruments such as multilateral institutions and bilateral partnerships with extra regional powers Cyprus Bail-in, The: Policy Lessons From The Cyprus Economic Crisis Alexander Michaelides, Athanasios Orphanides, 2016-02-29 On June 28th 2012 the small island of Cyprus became the fifth government to request an economic bail out from the Eurozone after losing access to international capital markets Less than a year later a 10 billion second rescue deal was agreed upon an unprecedented agreement that bailed in creditors of Cyprus two largest banks and triggered an economic crisis that the nation still struggles to recover from today This resourceful collection of essays provides a thorough and in depth analysis of how Cyprus reached the point of failure and what lessons this experience holds for future economic crises The various perspectives collectively address unanswered questions including whether the bail in can be considered successful why the recession was less severe than expected and what conclusions can be drawn about stress testing exercises across borders Focusing on one of the proportionately largest crises in financial history the case study will prove essential to policy makers and politicians especially in the euro area Hastings Communications and Entertainment Law Journal (Comm/Ent) ,2016 Daily Commercial Letter ,1896 *Unaccompanied Children in European Migration and Asylum Practices* Mateja Sedmak, Birgit Sauer, Barbara Gornik, 2017-07-06 Unaccompanied minor migrants are underage migrants who for various reasons leave their country and are separated from their parents or legal customary guardians Some of them live entirely by themselves while others join their relatives or other adults in a foreign country The concept of the best interests of a child is widely applied in international national legal documents and several guidelines and often pertains to unaccompanied minor migrants given that they are separated from parents who are not able to exercise their basic parental responsibilities This book takes an in depth look at the issues surrounding the best interests of the child in relation to unaccompanied minor migrants drawing on social legal and political sciences in order to understand children s rights not only as a matter of positive law but mainly as a social practice depending on personal biographies community histories and social relations of power The book tackles the interpretation of the rights of the child and the best interests principle in the case of unaccompanied minor migrants in Europe at political legal and practical levels In its first part the book considers theoretical aspects of children s rights and the best interests of the child in relation to unaccompanied minor migrants Adopting a critical approach to the implementation of the Convention of Rights of a Child authors nevertheless confirm its relevance for protecting minor migrants rights in practice Authors deconstruct power relations residing within the discourses of children s rights and best interests demonstrating that these rights are constructed and decided upon by those in power who make

decisions on behalf of those who do not possess authority Authors further on explore normative and methodological aspects of Article 3 of the Convention on the Rights of a Child and its relevance for asylum and migration legislation The second part of the book goes on to examine the actual legal framework related to unaccompanied minor migrants and implementation of children s rights and their best interests in the reception protection asylum and return procedures The case studies are based on from the empirical research on interviews with key experts and unaccompanied minor migrants in Austria France Slovenia and United Kingdom Examining age assessment procedures unaccompanied minors survivals strategies and their everyday life in reception centres the contributors point to the discrepancy between the states obligations to take the best interest of the child into account when dealing with unaccompanied minor migrants and the lack of formal procedures of best interest determination in practice The chapters expose weaknesses and failures of institutionalized systems in selected European countries in dealing with unaccompanied children and young people on the move *The Continuing Study of Newspaper Reading* Advertising Research Foundation, **Municipal Journal, Public Works Engineer Contractor's Guide** ,1955 **The Municipal Journal, Public Works Engineer and Contractors' Guide** ,1955 *Parliamentary Debates (Hansard)*.
