A Family Matter Megan Gaucher,2018-05-15 How do we define family In an attempt to police incoming migrants the Harper government adopted a strict definition of family to limit access to citizenship for certain immigrants Even when immigrants had no intention of sponsoring family members their familial networks affected their entry to Canada resulting in differentiated treatment of families living within and beyond Canadian borders Megan Gaucher analyzes the government s assessment of sexual minority refugee claimants relationship history and common law and married spousal sponsorship applications and its crackdown on marriage fraud concluding that this narrative of citizenship reinforces racialized gendered and sexualized assumptions about the Canadian family As many

Western governments ponder more restrictive immigration policies A Family Matter offers a timely examination of family formation as a factor in both granting and refusing citizenship This important work proposes a course for re evaluating how family is defined and for implementing more just assessments of immigrants and refugees **OECD Competition**

Assessment Reviews: Portugal Volume I - Inland and Maritime Transports and Ports OECD,2018-12-21 Against this backdrop this report analyses Portuguese regulations for road railway and maritime transport and many ancillary services such as vehicle inspection centres as well as Portugal s ports *Fitness to Plead* Ronnie Mackay,Warren

Brookbanks,2018-06-14 The law relating to fitness to plead is an increasingly important area of the criminal law While criminalization may be justified whenever an offender commits a sufficiently serious moral wrong requiring that he or she be called to account the doctrine of fitness to plead calls this principle into question in the case of a person who lacks the capacity or ability to participate meaningfully in a criminal trial In light of the emerging focus on capacity based approaches to decision making and the international human rights requirement that the law should treat defendants fairly this volume offers a benchmark for the theory and practice of fitness to plead providing readers with a unique opportunity to consider differing perspectives and debate on the future development and direction of a doctrine which has up till now been under discussed and under researched The fitness to plead rules stand as an exception to notions of public accountability for criminal wrongdoing yet despite the doctrine s long standing function in criminal procedure it has proven complex to apply in practice and has given rise to many varied legislative models and considerable litigation in different jurisdictions Particularly troublesome is the question of what is to be done with someone who has been found unfit to stand trial Here the law is required to balance the need to protect those defendants who are unable to participate effectively in their own trial whether permanently or for a defined period and the need to protect the public from people who may have caused serious social harm as a result of their antisocial behaviour The challenge for law reformers legislators and judges is to create rules that ensure that everyone who can properly be tried is tried while seeking to preserve confidence in the fairness of the legal system by ensuring that people who cannot properly engage in the criminal trial process are not forced to endure it **Political**
