industry      **Listed Buildings, Conservation Areas and Monuments** Charles Mynors, 2006 Published monthly this journal monitors developments in planning law environmental law compulsory purchase and related issues The journal is a forum for debate in planning and associated areas It includes current topics articles Parliamentary and Departmental news and case law reports      **Scottish Building Standards in Brief** Rozz Algar, Ray Tricker, 2010-05-04 Scottish Building Standards in Brief takes the highly successful formula of Ray Tricker's Building Regulations in Brief and applies it to the requirements of the Building Scotland Regulations 2004 With the same no nonsense and simple to follow guidance but written specifically for the Scottish Building Standards it's the ideal book for builders architects designers and DIY enthusiasts working in Scotland Ray Tricker and Roz Algar explain the meaning of the regulations their history current status requirements associated documentation and how local authorities view their importance and emphasises the benefits and requirements of each one There is no easier or clearer guide to help you to comply with the Scottish Building Standards in the simplest and most cost effective manner possible      **Altering Houses and Small Scale Residential Developments** Ann Bridger, Colin Bridger, 2012-10-02 Altering Houses and Small scale Residential Development is a practical guide for home owners and those undertaking residential building projects It is also useful for students and emerging professionals concerned with the built environment especially small scale development procedures Undertaking house alterations can be daunting not least because considerations of cost design and method can simultaneously demand urgent and careful attention In addition there are regulations and the law to be satisfied contracts to be entered into and a host of potential problems concerned with the form and condition of the building itself It is a rare building which is not defective in some way but putting things right can be very satisfying The Bridgers book assumes that many home owners now wish to understand more clearly what goes on when they commission contractors and consultants to convert and adapt their homes Or course there are also people who intend to manage a project themselves while others may undertake work on a DIY basis and the secret then is getting the right kind of help This book will be invaluable in either situation because it explains how to perform certain functions yourself yet clarifies the roles and responsibilities of the professionals who may be needed to help with the processes of buying altering and selling a house The economic factors in development are not overlooked since for people who wish to develop in order to sell or let property market conditions will be paramount as will the forecasting and control of costs This book provides practical guidance on these matters it avoids theory but does suggest further reading It is also highly illustrated with over 100 illustrations clarifying parts of the text The main theme of this book is altering houses but in practice the differences between some alterations schemes and building a new house can be relatively small As a result much of the material will be useful for those who wish to acquire a plot of land and undertake a modest residential development Altering or building houses and selling them can be a complex business covering a wide range of interrelated factors This book will make these processes easier      *Loft Conversions* John Coutts, 2012-12-21 Pressure on space and changes in planning law mean that loft

conversions are now at the forefront in the race to improve the performance of Britain's ageing housing stock. Since 1990, roof space conversions have increased UK housing capacity by more than 200 million square feet, a living area equivalent to a medium-sized city without the loss of a single square foot of greenfield land. *Loft Conversions* is the definitive technical guide to the conversion of roof spaces in single-family dwellings. It brings together a wealth of practical and regulatory guidance in a form that is easy to read and comprehensively illustrated. This fully revised and updated second edition is intended primarily for architects, builders, surveyors, and others professionally involved in the process of loft conversion. The insights it provides are also invaluable to self-builders and to householders wishing to achieve a deeper understanding of what a loft conversion involves.

*Building Law Encyclopaedia* David Chappell, Michael H. Dunn, Michael Cowlin, 2009-11-06. *Building Law Encyclopaedia* is a concise and authoritative reference providing information in reasonable depth on an extensive number of legal terms, principles, phrases, and issues that are commonly encountered in the construction industry. Most standard contracts are referred to, including the current suite of JCT Contracts SBC, IC, ICD, MW, MWD, as well as ACA, PPC 2000, GC Works 1, and NEC. In addition, some contracts which are theoretically out of date but which are still in common use are also covered. With over 1050 entries and numerous cross-references, it will be an invaluable reference for architects, quantity surveyors, project managers, and contractors. With detailed reference to appropriate case law and legislation, construction lawyers will also find it of considerable value in the course of their work.

*Practical Guide to Alterations and Extensions* Andrew R. Williams, 2004-06-02. This simple-to-use practical guide to altering or extending property is invaluable to all those who are trying to ensure that the processes involved are carried out efficiently and cost-effectively. For those working or planning to work in the construction industry, it will remind them of the pitfalls of local requirements, building control, and planning.
