## SERVICE MANUAL

US Model

Ver. 1.0 2008.01

HD Radio Broadcasting was approved by the Federal Communications Commission in October 2000 as the system for digital AM and FM broadcasting in the U.S.

HD Radio technology features include:

- Static-free, clear radio reception.
- FM Multicasting - the ability to broadcast multiple program streams over a single FM frequency.
- A variety of "data services," including text-based information - artist name, song title, etc. scrolled across your receiver display.
- Digital broadcasts in the same frequencies as analog broadcasts; listeners do not need to learn a new station number and today's stations remain at their current place on the dial.

HD Radio technology is developed and licensed by iBiquity Digital Corporation and supported by the leaders of the broadcasting, consumer electronics and automotive industries.

HD Radio™ Technology Manufactured Under License From iBiquity Digital Corp. U.S. and Foreign Patents. HD Radio™ and the HD-Radio logo are proprietary trademarks of iBiquity Digital Corp.
