find these topics interesting and learn these skills if I could find a way to weave them into an engaging story Q What do you hope the books achieve Safarova I want to get more people interested in business and teach them to solve problems in a better way Readers who don't have an interest in critical thinking problem solving and business may realize they learned a lot and also enjoyed the journey And readers who are intentionally building these skills will find this series helped them become better at solving problems Q What inspired the story Safarova I lived in the former USSR and I adapted events from my own life When I was 3 my parents were evicted on a less than 12 hours notice in the middle of Russian winter I remember lifting my legs high enough to make each step because the snow was so deep that night as we tried to find a place to stay That is the first memory I have of physically suffering Mavis's cappuccino scene is based on my own experience I was 21 when I first tasted cappuccino and I was blown away by how tasty it was At the time I barely had money to pay rent so I was skipping lunch and dinner on most days Leaving my 12 year old sister in Russia was one of the hardest things I ever had to do Yet it was the right thing because I am now fortunately able to help my family My little sister and I now work together and I could not be prouder of her The bond between Mavis and Corolla is autobiographical Q Was the strong female characters and themes of class segregation and climate change intentional Safarova I wrote what I knew and it was easier to channel my emotions and ideas through the eyes of a sixteen year old girl because I had been one Strip away the dystopian elements and everything in the story is happening today Q What's next for Mavis Safarova The story of Mavis and her sister Corolla will continue I am working on a prequel to explain the events that led to The Great Patriotic War Societies change slowly and we reach a tipping point I want to explore that while retaining the books focus on teaching critical thinking and problem solving skills in an entertaining way
