Of course, Nintendo was on their way to dominate the handheld sector until Sony came up with their own device to make a great debut in this sector. This device came in the form of the PlayStation Portable (PSP). For short, the PSP was by far every handheld gamer's dream device. The PSP's capabilities rivaled that of the early Game Boy and the DS combined. During that time, the PSP was on a brief competition with Nintendo's 3DS, and both have proven to be tough competitors in the handheld sector.
