Routledge Handbook of Race and Ethnicity in Asia Michael Weiner, 2021-09-30 The Routledge Handbook of Race and Ethnicity in Asia introduces theoretical approaches to the study of race ethnicity and indigeneity in Asia beyond those commonly grounded in the Western experience The volume's twenty eight chapters consider not only the relationship between ethnic or racial minorities and the

state but social relations within and between individual and transnational communities These shape not only the contours of governance but also the means by which knowledge of national identity self and other have been constructed and reconstructed over time Divided into four sections it provides holistic and comparative coverage of South South East and East Asia as well as Australasia and Oceania an area that extends from Pakistan in the West to Hawai i in the East Contributors to this handbook offer a variety of disciplinary and interdisciplinary perspectives opening a domain of scholarship wherein the relationship between phenotype and racism is less pronounced than European and North American approaches which have often privileged the so called colour stigmata leading to further exclusions of particular ethnic racial and indigenous communities This volume seeks to overcome racism and white ideologies embedded in theories of race and ethnicity in Asia proving a valuable resource to both students and scholars of comparative racial and ethnic studies international relations and human rights

Parliamentary Diplomacy of Taiwan in Comparative Perspective Šabič, Zlatko,Huang, David,2021-07-31 Parliamentary diplomacy has provided a crucial promising outlet in Taiwan s challenging pursuit of its own interests in the international arena This book assesses both the potentials and the constraints of parliamentary diplomacy for Taiwan Through a comparative perspective and using evidence from the relations of the Legislative Yuan in Taiwan with the US Congress and the European Parliament the authors investigate the implementation of parliamentary diplomacy in Taiwan and its impact in Taiwan s foreign policy In their analysis the authors draw vital lessons that will have important implications for other entities which have similar challenges and aspirations

Sovereignty and Status in East Asian International Relations Seo-Hyun Park,2017-05-11 This book provides a theoretical and empirical analysis of a key concept in East Asian security debates sovereign autonomy and how it reproduces hierarchy in the regional order Park argues that contemporary strategic debates in East Asia are based on shared contextual knowledge that of international hierarchy reconstructed in the late nineteenth century The mechanism that reproduces this lens of hierarchy is domestic legitimacy politics in which embattled political leaders contest the meaning of sovereign autonomy Park argues that the idea of status seeking has remained embedded in the concept of sovereign autonomy and endures through distinct and alternative security frames that continue to inform contemporary strategic debates in East Asia This book makes a significant contribution to debates in international relations theory and security studies about autonomy and status as well as to the now extensive literature on the nature of East Asian regional order

Assessing the Landscape of Taiwan and Korean Studies in Comparison ,2021-04-19 In *Assessing the Landscape of Taiwan and Korean Studies in Comparison* the chapters offer a reflection on the state of the field of Taiwan and Korea Studies For the editors the volume s purpose was to identify not just their similarities but also a reflection on their differences Both have national identities formed in a colonial period The surrender of Japan in 1945 ignited the light of independence for Korea but this would be ideologically split within five years For Taiwan that end forced it into a born again form of nationalism with the arrival of the Chinese Nationalists Taiwan and

South Korea's economic development illustrates a progressive transition and key to understanding this is the relationship between modernization and democracy. By looking at Korea and Taiwan the chapters in the volume broaden an understanding of the interconnectivity of the region.

The Return of Bipolarity in World Politics Øystein

Tunsjø, 2018-02-27 Since the collapse of the Soviet Union the international system has been unipolar centered on the United States. But the rise of China foreshadows a change in the distribution of power. Tunsjø shows that the international system is moving toward a U.S.-China standoff bringing us back to bipolarity, a system in which no third power can challenge the top two. *The Return of Bipolarity in World Politics* surveys the new era of superpowers to argue that the combined effects of the narrowing power gap between China and the United States and the widening power gap between China and any third ranking power portend a new bipolar system that will differ in crucial ways from that of the last century. Tunsjø expands Kenneth N. Waltz's structural realist theory to examine the new bipolarity within the context of geopolitics which he calls geostructural realism. He considers how a new bipolar system will affect balancing and stability in U.S.-China relations predicting that the new bipolarity will not be as prone to arms races as the previous era's that the risk of limited war between the two superpowers is likely to be higher in the coming bipolarity especially since the two powers are primarily rivals at sea rather than on land and that the superpowers are likely to be preoccupied with rivalry and conflict in East Asia instead of globally. Tunsjø presents a major challenge to how international relations understands superpowers in the twenty-first century.

Market Economics and Political Change Juan D. Lindau, 2000-01-01

Does market liberalization promote democracy? The accepted answer from scholars, pundits and politicians alike has been yes. However the contributors to this innovative study of market reforms and political change in Mexico and the People's Republic of China argue that this easy equation is not only empirically uncertain but methodologically flawed. Using comparative contextual analysis the contributors carefully identify the elective affinities between these two very different polities to reveal key variables that determine how markets will affect democracy particularly law as the rudder of democracy and the role of political culture in civil society.

Financial Crisis and Institutional Change in East Asia Jikon Lai, 2012-06-19

In light of the Asian financial crisis of 1997 Lai examines whether East Asian economies converged onto the liberal market model by studying the evolution of the financial sectors of Korea, Malaysia and Thailand. This includes sectoral diversification, the nature of competition and the regulatory and supervisory frameworks.

The Political Economy of Change and Continuity in Korea Seungjoo

Lee, Sang-young Rhyu, 2018-08-25 This book analyzes the transformation of Korean political economy since the 1990s. In the wake of the Asian financial crisis of 1997 the political economy of South Korea has evolved around two diametrically opposed features: convergence into the Anglo-American model and the state-led strategic restructuring of industries. To unravel the peculiar nature of the political economy in Korea the authors first identify major factors that contributed to the dual dynamics of change and continuity in Korea: external pressures, ideological shift in political leadership and the pivotal role of

the Korean government Next they examine the way in which these factors interacted with each other to reshape the evolutionary path of the Korean political economy Using several case studies the authors take us through the stages of this transformation from the reform of the chaebols to the industrial restructuring of the auto IT and aerospace industries to the rise of South Korea's Free Trade Agreements FTA initiative In explaining the role that the dual dynamics of change and continuity play in modern Korean political economy this book makes an important contribution to the existing literature and will be of interest to scholars and policy makers concerned with development in Korea and the Asia Pacific The Political Economy of East Asia Ming Wan, 2007-10-17 For students of international political economy it is hard to ignore the growth dynamism and global impact of East Asia Japan and China are two of the largest economies in the world in a region now accounting for almost 30 percent more trade than the United States Canada and Mexico combined What explains this increasing wealth and burgeoning power In his new text Ming Wan illustrates the diverse ways that the domestic politics and policies of countries within East Asia affect the region's production trade exchange rates and development and are in turn affected by global market forces and international institutions Unlike most other texts on East Asian political economy that are essentially comparisons of major individual countries Wan effectively integrates key thematic issues and country specific examples to present a comprehensive overview of East Asia's role in the world economy The text first takes a comparative look at the region's economic systems and institutions to explore their evolution a rich and complex story that looks beyond the response to Western pressures Later chapters are organized around close examination of production trade finance and monetary relations While featuring extended discussion of China Japan South Korea and Taiwan Wan is inclusive in his analysis with coverage including Myanmar Thailand Laos Vietnam Cambodia Malaysia Singapore Indonesia Brunei and the Philippines The text is richly illustrated with more than fifty tables figures and maps that present the latest economic and political data to help students better visualize trends and demographics Each chapter ends with extensive lists of suggested readings
